MONTANA FISHING REGULATIONS

Photo by Barry & Cathy Beck

*Montana Fish,
Wildlife & Parks*

For details on how to use these regulations, see page 2

fwp.mt.gov/fishing

With your help, we can reduce poaching. **MAKE THE CALL: 1-800-TIP-MONT**

FISH IDENTIFICATION KEY *If you don't know, let it go!*

CUTTHROAT TROUT are frequently mistaken for rainbow trout (see pictures below):

1. Turn the fish over and look under the jaw. Does it have a red or orange stripe? If yes— the fish is a cutthroat trout. Carefully release all cutthroat trout that cannot be legally harvested (see page 9).

BULL TROUT are frequently mistaken for brook trout, lake trout or brown trout (see pictures below):

1. Look for white edges on the front of the lower fins. If yes— it may be a bull trout.
2. Check the shape of the tail. Bull trout have only a slightly forked tail compared to the lake trout's deeply forked tail.
3. Is the dorsal (top) fin a clear olive color with no black spots or dark wavy lines? If yes—the fish is a bull trout. Carefully release bull trout (see page 9).

MONTANA LAW REQUIRES:

- All bull trout must be released immediately in Montana unless authorized. See Western District regulations.
- Cutthroat trout must be released immediately in many Montana waters. Check the district standard regulations and exceptions to know where you can harvest cutthroat trout.

NATIVE FISH

Westslope Cutthroat Trout

Species of Concern

Average Size: 6"–12"

Yellowstone Cutthroat Trout

Species of Concern

Average Size: 6"–12"

Bull Trout

A Threatened Species listed under the Endangered Species Act

Average Size: 16"–22"

Columbia River Redband Trout

Species of Concern

Average Size: 6"–10"

Arctic Grayling

Species of Concern

Average Size: 6"-12"

Northern Pikeminnow

Average Size: 7"-14"

Mountain Whitefish

Average Size: 6"-12"

NON-NATIVE FISH

Brook Trout

Average Size: 6"-12"

Lake Trout

Note: Native populations of Lake trout exist in a few isolated waters of southwestern Montana.

Average Size: 14"-20"

Brown Trout

Average Size: 12"-16"

Rainbow Trout

Note: Native populations of Interior Redband trout exist in localized waters of northwestern Montana.

Average Size: 8"-16"

Golden Trout

Average Size: 6"-12"

Lake Whitefish

Average Size: 19"-27"

Kokanee

Spawning male

Average Size: 8"-16"

Fish illustrations by Joseph Tomelleri. Fish are not shown to scale.
Species of Concern: see definitions.

INTERNET—fwp.mt.gov
A variety of information is available from FWP's award winning World Wide website. Fishing, Hunting, State Parks, Recreation, Wild Things, Habitat, Education, Montana Outdoors magazine and Inside FWP are just a few of the areas filled with helpful information. The site also provides links to various agencies, organizations, and news and weather services.

Emergency Fishing Regulations/Closures

FWP may announce short-term emergency fishing closures in response to biological or environmental conditions. Sport fishing regulations in this booklet for the designated waters will be suspended, and fishing may be curtailed or disallowed for the duration of the emergency period announced by the department. In recent years, many Montana streams have experienced drought conditions. Low stream flows can force trout to congregate in pools, making them more susceptible to anglers. Warm water temperatures can cause considerable stress to trout and can be fatal to fish handled by anglers. Check the FWP website, your local newspaper or call your regional FWP office to find out about emergency regulations/closures.

Regulations Adopted by the F&W Commission

By order of the Fish & Wildlife Commission (F&W Commission), the seasons, limits, and regulations listed here shall govern the 2014 fishing season (a fishing season runs from March 1 through the following February). These regulations were adopted by the F&W Commission on October 10, 2013 and will be valid March 1, 2014 through the end of February 2015. The F&W Commission may formally adopt changes to these fishing regulations, including emergency regulations/closures or corrections. Any changes to these regulations for the 2014 season will appear in an addendum sheet available at all Fish, Wildlife & Parks (FWP) offices and from FWP license agents, and on the FWP website. Emergency regulations/closures are posted at access sites. Anglers must obtain an addendum sheet to make sure they are in compliance with fishing regulations.

How To Use These Regulations

Follow these easy steps:

- 1) Read the first 18 pages of this booklet for general regulations and helpful information.
- 2) Determine the fishing district that you will be in and read the district's standard regulations. These are the regulations and limits that apply to a majority of waters in the district.

WESTERN FISHING DISTRICT – page 19

CENTRAL FISHING DISTRICT – page 45

EASTERN FISHING DISTRICT – page 73

Check if the specific water you will be fishing is listed in the District Exceptions to Standard Regulations (waters are listed alphabetically). If the water you plan to fish is identified, the exceptions take the place of the standard regulations for those items listed (i.e. season, daily limits, etc.). If not listed, the District Standard Regulations apply.

EXAMPLE: To fish for sauger on the Missouri River downstream from Fort Benton:

- **Eastern District Standard Regulations:** Pages 74 to 82 tell you when you can fish, standard limits, methods of angling allowed, and special permits that may be needed. The standard regulations also explain the daily and possession limits, including handling and transporting your catch, and provide basic information concerning fishing hours, bait and fishing methods.
 - **Eastern District Exceptions to Standard Regulations:** Page 84 identifies exceptions for the Missouri River and says that you are limited to one sauger per day with a possession limit of two upstream from Fort Peck Reservoir. All sauger and walleye must remain whole until you are off the water and done fishing for the day. Daily and possession limits for all other species are standard for the Eastern District.
- 3) If you don't find the water you are looking for listed in the district exceptions, use the standard regulations for the district you are fishing in. If you don't find a species you are looking for in the exceptions for your water, use the standard regulations for the district.
 - 4) ***New or changed 2014 regulations are displayed in bold italics.***
Or: Check the Montana Fish, Wildlife & Parks (FWP) website at fwp.mt.gov.

What License(s) Do I Need to Fish in Montana?

Age	Resident	Nonresident
1-11	No license required. Must observe all limits and regulations.	No license required IF accompanied by an adult who holds a valid Montana fishing license. The combined daily and possession limit for the two (or more) anglers cannot exceed the legal limit for one licensed angler. To catch his or her own legal limit, the youth must purchase a fishing license. See nonresident licenses 15-62+ years of age.
12-14	Conservation License Only	
15-61	Conservation License (\$8) + Fishing License (\$5 for 2 consecutive days or \$18 for season, \$8 for season for anglers ages 15-17 years). Resident Sportsman and Youth Sportsman (12-17 years) licenses include a season fishing license.	
62+	Conservation License Only	

Free fishing weekend on June 14-15, 2014.

By Montana law, each year on Father's Day weekend any person (resident or non-resident) may fish for any fish within this state without obtaining a fishing license as long as they abide by the seasons, restrictions and bag limits listed in these Fishing Regulations. The two exceptions to this are paddlefish and bull trout fishing, both of which require the purchase of a Conservation and Fishing License. Fishing for paddlefish also requires a paddlefish tag. A catch card is required to fish for bull trout as described on page 5.

License/Permit Requirements

A valid fishing license (see license requirements table below) is required for all types of fishing on state waters. To fish in Montana, most anglers need two licenses: a Conservation License and a Fishing License, see table below. *You must have your fishing license in your possession while fishing.*

A Conservation License is needed before you can buy any fishing or hunting license that Fish, Wildlife & Parks (FWP) issues. Conservation license applicants are required to provide their social security number in addition to the information usually requested. A valid driver's license or a valid photo ID is required to purchase a license.

A fishing license allows a person to fish for and possess any fish or aquatic invertebrate authorized by the state's fishing regulations. It is nontransferable and nonrefundable. The license enables one to fish from March 1 through the end of February of the following year.

4 Turn In Poachers. Enough is Enough! Make the call: 1-800 TIP-MONT (1-800-847-6668)

Resident Licenses: To qualify for a resident license, a person must meet the criteria set out in MCA 87-2-102 and 202. To be a legal resident eligible to purchase a resident fishing license, you must have physically been living in Montana for at least 180 consecutive days (six months) immediately before purchasing any resident license; you must file Montana state income tax returns as a resident, if you are required to file; you must have registered your vehicles in Montana; if you are registered to vote, you must be registered in Montana; and you may not possess or apply for any resident hunting, fishing or trapping privileges in another state or country. At the time of purchase, a person must present a valid Montana driver's license, a valid Montana driver's examiner's identification card, or a tribal identification card. If unsure of your residency status, contact a regional FWP office.

Special Fishing Licenses

Paddlefish: All anglers must purchase a paddlefish tag to fish for paddlefish. To purchase a tag: Residents aged 15-61 must have a valid Conservation License and Fishing License. Resident youth 14 and younger and resident anglers over 62 must have a Conservation License. Nonresidents of any age, including youth 14 and younger, must have a valid Conservation License and a Fishing License. Limit of one tag (one fish) per person.

Resident - \$6.50 each

Nonresident - \$15 each

Bull Trout: Hungry Horse Reservoir, Lake Koocanusa and part of the South Fork Flathead River are open for a regulated and experimental bull trout angling season. When fishing for bull trout each angler must have in possession a valid Bull Trout Catch Card for the specific water he/she is fishing. Anglers may select only one of the following areas: A) Lake Koocanusa, or B) Hungry Horse Reservoir and South Fork Flathead River. Swan Lake is open to angling for bull trout without a special permit. All other waters are closed to intentional angling for bull trout year around.

Catch Cards are free of charge and are available at the FWP Region One office in Kalispell. Applications for a catch card are available at the FWP Region One office or online at fwp.mt.gov. Completed applications must be presented at the regional headquarters or mailed to FWP Bull Trout Permit, 490 North Meridian, Kalispell MT 59901.

Montana Resident With Disability: Montana FWP seeks to ensure that its programs, services and activities are accessible to persons with disabilities. Montana FWP provides many representative recreational opportunities. To learn more or to request modifications or accommodations relative to a disability, contact the FWP Americans with Disabilities Act Coordinator, Shelley Juvan, at 406-444-2602.

- Resident Person With a Disability Conservation License - \$8

Must be permanently and substantially disabled. Applications and licenses available only at regional FWP offices. Allows the holder to fish. Available to residents only.

- Lifetime Fishing License for the Blind - \$10

Contact the Helena FWP Licensing office for information and an application.

Veterans Administration Patients: Permits are available for patients residing at VA Hospitals and residents of State institutions, except the State penitentiary. These free permits are available on-site at the VA hospital or State institution. Contact 406-444-2452.

Legion of Valor: A Conservation License allows both residents and non-residents, regardless of age, to fish. Legion of Valor membership card required to qualify. Available only at FWP offices.

Care Facility: The manager or director of an eligible facility licensed in Montana may apply for permission to take supervised residents fishing during activities approved by the facility. Licensed facilities include long-term care, personal care, home for persons with developmental disabilities and home for persons with severe disabilities. Contact 406-444-2452.

Education Exemptions: Free fishing license exemptions are available for qualified educational events and fishing clinics. For information on these free educational exemptions, call 406-444-9943.

Purple Heart

- Residents who have been awarded a Purple Heart, regardless of age, may fish and hunt upland game birds with a conservation license issued by the Department.
- Nonresidents who have been awarded a Purple Heart, regardless of age, may fish and hunt upland game birds with a conservation license issued by the Department during expeditions arranged by a nonprofit organization that uses fishing and hunting as part of rehabilitation.
- Verification of Purple Heart and DD 214 Form required to qualify. Residents only available at FWP offices. Nonresidents only available at FWP Headquarters in Helena.

Other Permit Requirements and Laws

State School Trust Lands: Your conservation license provides anglers, hunters and trappers access to legally accessible State School Trust Lands for fishing and hunting. Other recreational activities such as hiking and bird watching still require the \$10 state lands recreational use permit. These activities cannot, by Federal statute, be covered by the conservation license. Additional information regarding the rules, regulations, and restrictions governing these activities is available from FWP or contact DNRC at 406-444-2074.

- On lands outside designated campgrounds there is a 2-day camping limit.
- Motorized travel is only allowed on public roads or on designated roads.
- No open fires are allowed except in designated campground fire pits. Contained mechanical heat sources are allowed.

Aquatic Invertebrates - Crayfish/Mussels: A valid fishing license is required to harvest crayfish for personal use (see "License/Permit Requirements" for specific license requirements). Crayfish may be taken in traps no larger than 24x12x12 inches. Commercial harvest of crayfish or mussels is prohibited.

Commercial Collection of Aquatic Invertebrates and Mussels: Persons wishing to collect aquatic invertebrates (such as leeches and aquatic insects) for sale or commercial distribution should contact their regional FWP office for information. In accordance with the Administrative Rules of Montana, Section 12.2.501, it is unlawful to take or possess freshwater mussels or their shells for sale or commercial distribution.

Commercial Fishing Licenses

Bait Fish Seining: Commercial Harvest, \$10 Fee

- Contact regional FWP offices for a Bait Fish Seining License and a list of waters open to commercial seining: \$10 fee per year.
- A bait fish seining license is required:
 - For persons 15 years of age and older to seine for and transport bait fish for commercial purposes in Montana;
 - For any person who seines for and has in his/her possession more than 24 dozen non-game bait fish.
- Non-game bait fish (except carp, goldfish and rainbow smelt) may be harvested commercially and transported in accordance with Administrative Rules of Montana (ARM) Section 12.7.201-12.7.206. Live bait fish or leeches may not be imported into Montana for commercial or other purposes unless authorized by FWP. Bait fish may not be exported without FWP authorization. Call 406-452-6181 or go online at fwp.mt.gov for more information.

Commercial Whitefish Fishing: A permit is required to sell whitefish.

- **Hook and Line Permits:** Whitefish may be taken by hook and line for sale in the following waters--Flathead Lake north of the Flathead Reservation boundary, Flathead River north of Flathead Lake, Fisher River, Kootenai River, and Whitefish Lake.
- **Net/Seine Permits:** Whitefish may be taken from the Kootenai River and tributaries (within one mile of the Kootenai River). Application required; fee is \$200 plus a \$1,000 bond per year.

Fishing Contests: A permit from FWP is required for most fishing contests. Contact your local FWP office for information and an application or download an application from the FWP website.

Hoop Net Fishing Permit: A permit is required to use hoop nets. Permits are only available in the Eastern Fishing District. Contact FWP offices in Billings, Glasgow or Miles City for information.

Import Permits for Fish: A permit is required to import live fish into Montana. Contact the FWP Fish Health Lab in Great Falls at 406-452-6181 or download an application from the FWP website.

Private Fish Ponds – License Requirements, \$10 Fee for 10 years

A person who owns or lawfully controls a private fish or ornamental pond may obtain a license from FWP to stock the pond with fish. Only lawfully purchased fish may be planted. Contact your local FWP office for more information and an application or download the application from the FWP website. No fishing license is required to fish on licensed, privately stocked fish ponds. Fishing license requirements apply to all other ponds and/or waters on private land.

Koi and goldfish ponds must be registered with FWP. Registration forms are available online at fwp.mt.gov/fishing/regulations/koiGoldfishPondRegistrationForm.html or from all FWP offices. There is no fee for registering a pond.

Unattended Fishing Devices: Any unattended fishing device (crayfish traps, minnow traps, fish traps, setlines, etc.) must have the angler's name and phone number or ALS# attached to it.

Penalties for Violations of the Law

Most fish and game violations are misdemeanors that are punishable by a fine not to exceed \$1,000 and imprisonment for not longer than six months. The court may also order the forfeiture of any current hunting, fishing and trapping licenses and the privilege to hunt, fish and trap, or use state lands for recreational purposes for a period set by the court.

Taking an over limit of fish will result in a fine **plus** restitution to the state for each fish over the limit. Restitution for bull trout may be up to \$500 per fish and for river grayling, white sturgeon, and paddlefish restitution is \$300 per fish.

It Is Unlawful And A Misdemeanor

- To violate any regulations listed in this booklet.
- To introduce any fish or viable fish eggs into any waters without FWP permission.
- To refuse to show one's fishing license upon demand.
- To refuse to show one's fish upon demand.
- To loan or transfer your fishing license or tags to any person.
- To sell game fish except as prescribed by F&W Commission regulations.
- To leave or dump any dead animal, fish, garbage or litter in or on any state, federal or private property where public recreation is permitted.
- To stun or kill fish by using any carbide, lime, giant powder, dynamite, or other explosive compounds, or any corrosive or narcotic poison. To possess these substances within 100 feet of any stream where fish are found is unlawful.
- To hire or retain an unlicensed outfitter or guide.
- To waste any part of game fish suitable for food (see Waste of Fish or Game definition on page 18).

General Information For Anglers

Montana Trespass Law: Montana's trespass law states that a member of the public has the privilege to enter private land only:

- with the explicit permission of the landowner or his/her agent, or
- when the landowner has failed to post a no-trespassing notice or mark legal accesses with 50 square inches of orange.

FWP recommends that anglers obtain permission from the landowner before entering private lands. Recreationists are urged to obtain complete rules about this law from any FWP office.

Montana Stream Access Law: Under the Montana Stream Access Law, the public may use rivers and streams for recreational purposes up to the ordinary high water marks. Although the law gives recreationists the right to use rivers and streams for water-related recreation, it does not give them the right to enter private lands bordering those streams or to cross private lands to gain access to streams without landowner permission. FWP recommends that recreationists obtain landowner permission to cross private land to access a stream. Complete rules are available at any FWP office.

River Etiquette

- Be aware that boat access areas can be busy places; you may wish to fish in a location that is less congested.
- Do not encroach on another angler's space. Use the "visual rule of crowding" and attempt to keep out of sight of other anglers, if at all possible.
- Try not to monopolize a good fishing spot on the river. Fish for a while, then move on.
- Boats should always yield to wade anglers, however, there are instances when the wading angler should yield to floaters, such as when there is no other channel for the floaters to navigate.
- When possible, avoid using the streambed as a pathway. This type of foot traffic can cause damage to the fragile aquatic habitat. Anglers should use the shoreline to travel from one point to the other, if doing so doesn't violate trespass and stream access laws.

Check Stations: Anglers and hunters are required to stop as directed at all designated check stations on the way to and from fishing and hunting areas, even if they have no fish or game to be checked.

Children's Fishing Waters: Numerous waters across the state provide excellent fishing opportunities for young anglers. A few waters have been set aside exclusively for the use of young anglers. Waters posted as Children's Fishing Waters are open to fishing during the entire year to persons 14 years of age and younger only with the exception of Indian Road Pond (see District Exceptions). One rod allowed per child.

Blacktail Meadows Pond, Dillon	Home Run Pond, Glasgow
Elks Club Pond near Lewistown	Indian Road Pond near Townsend
Fairground Pond, Helena	Kid's Pond in the Warm Springs Wildlife
Fort Peck Kids Pond near Fort Peck	Management Area near Warm Springs
Gheny Pond near Twin Bridges	Vigilante Pond near Virginia City

Catch-and-Release Angling: Waters designated catch-and-release for one or more species of fish require that those fish be immediately released alive. Before you start fishing in these waters, consider the following in order to give the fish you release the best possible chance to survive: 1) Artificial lures are preferred over bait to reduce deep hooking and catch and release mortality; 2) Single hooks are preferred over treble or multiple hooks because they are easier and quicker to remove; 3) Barbless hooks are recommended over barbed hooks because they are easier to remove and reduce release time; 4) Heavier gear is preferred over lighter gear because it makes it easier to land fish; and 5) Rubber or neoprene nets are preferable because they are less likely than nylon nets to catch hooks which increases release time.

Releasing Fish

To ensure a released fish has the best chance for survival:

- Play the fish as rapidly as possible. Do not play it to total exhaustion.
- Keep the fish in water as much as possible when handling and removing the hook.
- Remove the hook gently. Do not squeeze the fish or put your fingers in its gills. There are release devices available from most sporting/fishing stores to assist you, and the use of barbless hooks makes releasing fish easier.
- Set the hook quickly to avoid deep hooking the fish. If the fish is deeply hooked and must be released by regulation, cut the line inside the mouth opening. Do not yank the hook out, as some fish will survive with hooks in them. Anglers should strongly consider keeping fish deeply-hooked in the throat or gills if allowed by regulations on that waterbody.
- Release the fish only after it has gained its equilibrium. If necessary, gently hold the fish upright in the current facing upstream and move it slowly back and forth.
- Release the fish in quiet water close to the area where it was hooked.

Lake/Reservoir fishing from boats:

- Fish caught from deep water may be unable to vent their air bladder and may “bloat”. Puncturing the air bladder or “fizzing” is not recommended because it may cause infections. A simple release tool will facilitate releasing the fish in deep water and recompressing it quickly. All you need is a 50-foot cord, a weight and a hook. Dull the hook, flatten the barb and attach the hook inline just above the weight with knots at the hook eye and bend. The hook should be pointing down toward the weight. Place the hook over the lower jaw of the fish and let the weight drop, pulling the fish down rapidly. A tug on the cord will release the fish.

Safer Fishing Tackle: Loons, swans, cranes and other waterbirds can die from lead poisoning after swallowing lead fishing sinkers and jigs lost by anglers. Sinkers and jigs do not have to be made of lead. To help protect waterbirds from getting lead poisoning, anglers can use sinkers and jigs made from non-poisonous materials such as tin, bismuth, steel and recycled glass.

What You Can Do

- Ask your local sporting goods store to stock non-lead fishing tackle.
- Use non-lead fishing weights.
- Discard old lead sinkers and jigs properly.
- Spread the word. Tell other anglers about the problem with lead and encourage them to switch to non-lead sinkers and jigs.

Fishing Methods: Fish may be taken only by hook and line or other approved methods. Regulations for the taking of fish are listed in the standard regulations for each fishing district (see pages 21, 47 & 75).

Fishing From Boats/Vessels, Float Fishing and Float Outfitting are regulated on some rivers and streams (see District Exceptions for regulated waters).

These regulations apply as follows:

- When a water is closed to **“Fishing From Boats/Vessels,”** an angler may not fish while on any boat or vessel. However, an angler may use a boat or vessel to access wade fishing opportunities. The angler must be completely out of the boat or vessel while wade fishing.
- When a water is closed to **“Float Fishing,”** an angler may not fish from a boat or vessel, and may not wade fish in the river or stream, or from the back or shoreline of the river or stream, when fishing access is gained by boat or vessel.
- When a water is closed to **“Float Outfitting,”** the operation of any boat or vessel for the commercial purpose of float fishing by a fishing outfitter or fishing guide is prohibited.

Disposal of Dead Fish and Fish Entrails: When you are in a boat on the water and fishing, it is acceptable to dispose of fish entrails in deep water in the lake, reservoir or river. When you are near or on the shore or bank, it is recommended that you bag all fish remains and dispose of the bag in an appropriate garbage receptacle. Help keep the shoreline clean for others. It is unlawful to discard game fish; however, dead non-game fish may be treated like fish entrails for disposal purposes (puncture the bladder first so the fish will sink).

Measuring Fish: Measure the greatest length from the tip of the nose to the tip of the tail. Place the fish on a flat surface and squeeze the lobes of the tail fin together so as to achieve the greatest length. Do not measure over the curve of the body.

Tagged Fish: It is legal to harvest a radio tagged fish, however, the radio tag must be returned to FWP. If you catch a tagged fish, please report the following information to any Fish, Wildlife & Parks office or online at <http://fwp.mt.gov/fishing/guide/taggedFish.html>:

1. the tag's number and color;
2. the date the fish was caught;
3. the species of the fish;
4. the fish's length and weight (close as possible);
5. location of the catch (the body of water and distance from nearest landmark);
6. whether the fish was kept or released; and
7. the name and address of the angler.

Fishing Log Program: If you fish regularly in Montana, help us gather fishing information by keeping a fishing log. Call or write for a Fishing Log. Montana Fish, Wildlife & Parks, Fisheries Division, PO Box 200701, Helena, Montana 59620-0701; 406-444-7815. Include your name, address and phone number with all requests. You may also enroll online at <http://fwp.mt.gov/fishing/guide/fishingLog/>.

Off-Highway Vehicles: An off-highway vehicle must have a current Off-Highway decal displayed in a conspicuous place to be used for off-road recreation on public lands in Montana (including frozen lakes and reservoirs). Decals are available from county treasurers. Owners of unregistered and unlicensed OHVs from other states must purchase a temporary use permit through FWP regional offices in person or by mail through the Helena FWP office. Nonresidents who operate licensed machines for more than 30 days in Montana must obtain the temporary use permit also.

Federal Wildlife Refuges

- Certain waters on Federal Wildlife Refuges may have special rules. Specific information may be obtained from the headquarters of the federal refuge involved.
- Commercial bait regulations are not valid on Indian Reservation waters. For information, contact local tribal officials.

National Parks: Certain waters within National Parks have special rules. Specific information may be obtained from the park headquarters. For Glacier National Park, call 406-888-7800 and for Yellowstone National Park, call 307-344-7381.

**Purchase your fishing license, hunting license(s)
and special drawing items online
<https://app.mt.gov/Als/index>**

Indian Reservations: Certain waters on Indian Reservations may have special rules and permits. Specific information should be obtained from Reservation headquarters.

- The State of Montana and Confederated Salish & Kootenai Tribes have entered into a cooperative agreement on the Flathead Reservation. A tribal permit is required to fish on waters within the exterior boundary of the Reservation. Call tribal headquarters at 406-675-2700 for information.
- The State of Montana and the Fort Peck Tribes have entered into a cooperative agreement on the Fort Peck Reservation. A tribal permit is required to fish on waters within the exterior boundary of the reservation. Call tribal headquarters at 406-768-5305 for information.
- A State of Montana fishing license is required to fish on the Bighorn River within the exterior boundaries of the Crow Reservation. A tribal permit is not required.

Good Fishing Depends on Clean Water: Many of our rivers, lakes, and coastal areas are experiencing algae blooms that cover our favorite fishing spots with green slime and cause fish kills and “dead zones” where no aquatic life can survive. The cause is usually nitrogen and phosphorus pollution that comes from farm and lawn fertilizers, septic systems, animal waste, and sewage treatment plants. Here's what you can do to keep the water clean:

- Take care not to over fertilize and closely follow package instructions
- Pick up pet waste and properly manage waste from livestock
- Use green practices such as rain barrels, rain gardens, and permeable pavements
- Maintain septic systems
- Encourage your community to invest in its wastewater infrastructure

Supporting water quality protection supports great fishing! Learn more at:

www.epa.gov/nutrientpollution/

HELP STOP THE SCOURGE OF ILLEGAL FISH INTRODUCTIONS

ILLEGAL INTRODUCTIONS HURT THE RESOURCE AND YOU THE ANGLER

- Illegal introductions of fish can displace existing fisheries, resulting in a loss of fishing opportunity.
- Illegal introductions can lead to the spread of diseases which can kill fish.
- Illegal introductions can lead to the genetic contamination of native or other important fish species.
- Illegal introductions can raise fish management costs, and therefore costs to anglers, through increased hatchery operations and chemical treatments.
- Illegal introductions are made without proper biological analysis and public input meaning that you the angler had no say in an ill-informed action by self-serving individuals.

PENALTIES

- Fines of \$2,000 up to \$10,000 and imprisonment for up to one year.
- Liability for all costs to eliminate or mitigate the effects of the violation.
- Loss of hunting, fishing and trapping privileges for at least 5 years.

WHAT YOU CAN DO

Be aware that without FWP authorization, the release of any live fish into any Montana pond, lake, stream or river is strictly illegal. Anyone who appears to be dumping fish (including bait fish) should be reported immediately by calling 1-800-TIP-MONT — 1-800-847-6668. Anyone providing information leading to a conviction for illegal fish introductions is eligible for up to a \$1,000 reward.

Motorboat and Vessel Restrictions

The use of vessels and motors may be restricted on some waters. A complete, updated, copy of the Montana Boating Laws is available from any FWP office, or by calling 406-444-2535. Additional restrictions may be posted at access points to specific waters. Contact the County Sheriff's office or federal agency where you will be boating to find out if additional restrictions are in effect.

All passengers under the age of 12 must wear a PFD at all times when the motorboat or vessel is in motion if the motorboat or vessel is less than 26 feet long. A wearable, U.S. Coast Guard approved PFD must be available for each occupant. Children 12 years of age or younger may not operate a motorboat or a personal watercraft (jet skis, water bikes, etc. that use a motor or engine to power a water jet pump as the primary source of propulsion and that is designed to be operated by a person standing or kneeling on the vessel) powered by a motor rated at more than 10 horsepower unless accompanied by someone 18 years of age or older. Youths 13 and 14 may not operate those vessels without possessing a valid Montana motorboat operator's safety certificate or evidence of completing an approved water safety course, unless accompanied by someone 18 years of age or older. A home-study boating course is available from FWP.

Sailboats 12 feet long and longer, and all motorboats and personal watercraft must be registered and numbered. Non-motorized sailboats less than 12 feet long and manually propelled boats, regardless of length, are exempt from registration and taxation. Also exempt are a vessel's lifeboat, government-owned boats, and properly registered boats from out-of-state or country that will not be in Montana for more than 90 consecutive days.

No-Wake Zones on Lakes – Western Fishing District Only

All watercraft operating on public lakes and reservoirs of 35 surface acres or less within the Western Fishing District are limited to no-wake speed. The Montana Boating Laws booklet contains a complete list of these lakes. Contact your local FWP office for a copy.

All watercraft operating on public lakes and reservoirs greater than 35 surface acres within the Western Fishing District are limited to no-wake speed from the shoreline to 200 feet from the shoreline. No-wake speed is defined as a speed whereby there is no "white" water in the track or path of the vessel or in created waves immediate to the vessel.

General Boating Restrictions

- Do not anchor a vessel in a position that obstructs a passageway ordinarily used by others.
- Do not operate a vessel within:
 - 20 feet of a designated swimming area marked by white and orange buoys.
 - 50 feet of a swimmer in the water except for boats towing water skiers.
 - 75 feet of an angler or a waterfowl hunter unless it is unavoidable. If unavoidable, travel at no wake speed or at the minimum speed necessary to maintain upstream progress.
 - 200 feet of a diver's flag.
- Motorboats and vessels 16 feet and longer (except canoes and kayaks) must also have a throwable type IV PFD on board.
- It is unlawful to operate or be in actual physical control of a motorboat while under the influence of alcohol or drugs.
- All motorboats and vessels must carry equipment as required by the Montana Boating Laws.

Boaters: This flag means there are scuba divers in the area. Montana law requires that motorboats stay at least 200 feet away from a **DIVER DOWN** flag. Violators may be subject to a fine of \$500 or 6 months imprisonment, or both. MCA 23-2-525.

Montana Fishing Access Sites

With over 300 fishing access sites to choose from across the state, anglers enjoy good access to the state's streams and rivers, lakes and reservoirs. You may download a field guide to fishing access sites located on Montana's streams, rivers, and lakes, or you may use the interactive Montana Fishing Guide at fwp.mt.gov/fishing/guide to find a fishing access site.

The field guide describes the Fishing Access Sites (FASs) located on Montana's streams, rivers and lakes that vary in size from less than one acre to several hundred acres. Montana's FAS program provides public access to high quality waters for angling, boating, rafting, and other recreation opportunities. In addition, FASs are often popular areas for hunting, wildlife viewing, hiking, bird watching, picnicking, etc. The funding to purchase, develop, and maintain these important sites comes from the sale of sportsman's licenses, state motorboat registration fees, and federal Sport Fish Restoration fees.

Fees

There are no day use fees for Montana's FAS program; however, where overnight camping is allowed, a camping fee may be charged. The revenue from the camping fees is used to offset the additional expenses involved in operating and maintaining these higher use sites.

Commercial Use

A permit is required to conduct commercial activities at fishing access sites. Please contact the Regional FWP administrative office or the FWP website for more information.

Camping

Many of the FASs are managed as day use only, but camping is allowed at 103 locations. An overnight camping fee is charged at many of the sites.

FASs are primitive or semi-primitive sites. They do not have electricity, running water, or dump stations. Not all sites are designed for access by larger recreational vehicles. It may be necessary to physically inspect the facility before pulling in if the parking area is not visible from the access road.

Additional camping opportunities with higher levels of development are available at Montana's state parks and at other locations throughout the state. Please refer to the State Parks brochure for a list of state parks with campgrounds.

EPA's new How's My Waterway app and website helps users quickly find information on the condition of their local waters using a smart phone, tablet, or desktop computer. This tool provides results within seconds using EPA's water quality assessment data. Check out the condition of your local waterbody today!

Visit www.epa.gov/mywaterway.

Sport Fish Consumption Guidelines

The Montana Department of Public Health and Human Services (DPHHS) has issued advisories for the consumption of fish from certain Montana waters. Fish from some Montana waters contain levels of chemicals that may be especially harmful to young children, nursing mothers, and childbearing women or persons frequently consuming fish. Information, advice and additional details about fish consumption is available from the DPHHS, telephone 406-444-2408. This information is also available in a brochure titled "Montana Sport Fish Consumption Guidelines" which can be obtained at any FWP office or license provider, or on the FWP website at:

fwpiis.mt.gov/content/getItem.aspx?id=28187

Waters with a fish consumption advisory and an exception to the standard fishing regulations are identified with a fish icon to help you identify places to pay special attention to when harvesting fish.

General Guidelines to Reduce Your Health Risk

- **Keep smaller fish for eating.** They taste better and have had less time to accumulate contaminants than older, bigger fish.
- **Eat smaller meals when you eat big fish and eat them less often.**
- **Eat fish that are less likely to be contaminated.** Contaminants such as mercury and PCBs build up in large predatory fish such as walleye and lake trout. Their prey, such as yellow perch and rainbow trout, have less contaminants.
- **Clean and cook your fish properly.** Trim fish to remove fatty portions. Cook fish in a way that drains juices away from the meat.

The following waterbodies contain fish species with consumption advisories. More detailed information is available on the FWP website: fwp.mt.gov/fwpDoc.html?id=28187

Alder Gulch	Clear Lake	Lake Elwell aka	Noxon Rapids Reservoir
Bair Reservoir	Cooney Reservoir	Tiber Reservoir	Petrolia Reservoir
Belt Creek	Crystal Lake	Lake Frances	Prickly Pear Creek
Big Spring Creek	Dry Fork Carpenter	Lake Helena	Seeley Lake
Bighorn Lake and	Creek	Lake Koocanusa	Silver Creek
Afterbay Reservoir	Firehole River	Lake Marlin	Snow Creek
Blacktail Creek	East Fork Reservoir	Lake Mary Ronan	South Sandstone
Boulder River	Flathead Lake	Lake McDonald	Reservoir
Bowman Lake (Glacier NP)	Flint Creek	Lee Metcalf Pond NWR	St. Mary Lake
Browns Gulch	Fort Peck Reservoir	Leigh Lake	Swan Lake
Bynum Reservoir	Fred Burr Creek	Lower Stillwater Lake	Thompson Falls
Cabinet Gorge Reservoir	Fresno Reservoir	Madison River	Reservoir
Canyon Ferry Reservoir	Georgetown Lake	Martinsdale Reservoir	Tongue River
Carpenter Creek	Gibbon River	Medicine Lake NWR	Reservoir
Castlerock Lake	Harrison Lake (Glacier NP)	Missouri River	Upper Two Medicine
Cataract Creek	Hauser Reservoir	Mountain View Lake	Waterton Lakes
Chrome Lake	Hebgen Reservoir	Mystic Lake	Whitefish Lake
Clark Canyon Reservoir	Holter Reservoir	Nelson Reservoir	Yellowstone River near
Clark Fork River	Island Lake	Ninepipes Pond	Powder River

Future Fisheries Program

For the last 15 years, FWP's Future Fisheries Improvement Program has provided funding to restore rivers, streams and lakes to improve and protect Montana's wild fish habitats. About \$650,000 are available each year for habitat projects that revitalize wild fish populations. Any entity with a good habitat project that would benefit Montana's wild fish will be considered for funding. Applications are considered twice a year and are due December 1 and June 1. An independent review panel reviews program applications and recommends funding to the Montana Fish & Wildlife Commission for final decisions. Future Fisheries applications and additional information about the program can be found on FWP's webpage:

fwp.mt.gov/fishAndWildlife/habitat/fish/futureFisheries

Thank You Anglers And Motorboaters!

The Sport Fish Restoration (SFR) Program provides grant funding to all state fish and wildlife agencies for fishery projects, boating access, and aquatic education. The Program is authorized by the Sport Fish Restoration Act of 1950, also known as the Dingell-Johnson Act in recognition of the original bill sponsors. Annually, FWP receives in excess of \$8 million in SFR funds.

The SFR Program was created to assist states with restoration and management of our nations fisheries, and was modeled after the successful Wildlife restoration Program of 1937. Funding for the Program comes from tax revenues collected from the sale of fishing equipment, motorboat, and small engine fuels.

Every time you purchase fishing equipment or fuel for your boat, you are supporting fisheries management and motorboat access programs in Montana.

The SFR Program represents one of the most successful user-pay, user-benefit programs in the nation.

Montana FWP Foundation

The Montana Fish, Wildlife & Parks Foundation is a non-profit corporation to provide private financial support for the critical efforts of Montana Fish, Wildlife & Parks and for preserving and enhancing Montana's natural, cultural and recreational resources for future generations.

The Foundation was created to help support new work. It will build an endowment of corporate donations and individual gifts to fund programs that conserve wild places, restore imperiled species, maintain access, protect unique cultural and historic parks and educate kids about the wonders of our world. For more information or if you would like to make a contribution, call 406-444-6759, or write Montana Fish, Wildlife & Parks Foundation at PO Box 200701, Helena MT 59620-0701.

Modified Clinch Knot

- 1) Put the end of the line through the eye of the hook and bring it back toward the line.
- 2) Make five "S" twists around the line.
- 3) Take the end back toward the hook and push it through the first loop nearest the eye.
- 4) Bring the end back through the big loop.
- 5) Hold the hook and the line, pull the knot tight until it looks like the knot shown.

Definitions

ANGLING/FISHING: Angling or fishing means to capture or attempt to capture fish, or the act of a person possessing any instrument, article or substance for the purpose of taking fish in any location that a fish might inhabit.

ARTIFICIAL LURE: Any man-made lure (including flies) that imitates natural bait. Artificial lures may have a scent infused or applied. Artificial lures do not include fish eggs, any natural or artificial food such as corn and marshmallows, any products that are derivatives of natural foods, any chemically treated or processed natural bait such as salted minnows, nor any artificial dough, paste or edible baits.

ATTENDED LINE: A line with/without a pole held in hand or under immediate control. When used through the ice, the angler need not be in immediate control but must be in the vicinity and in visual contact with the line.

CALENDAR DAY: A 24-hour period from midnight to midnight.

DAILY LIMIT: The number of fish that may be legally taken during a calendar day. A fish when landed and not immediately released becomes part of the bag limit of the person originally hooking the fish even if the fish is donated to another person. If you receive fish from another angler, those fish also become part of your daily limit.

DRAINAGE: All of the waters comprising a watershed, including tributary rivers, streams, sloughs, ponds and lakes that contribute to the water supply of the watershed.

DRESSED FISH: A fish which has been cleaned by removing the entrails. Dressed fish also may be filleted and/or have their head, gills and scales removed.

ENDANGERED SPECIES: Species in imminent danger of extinction throughout their range and listed by state or federal regulation.

FISHING ACCESS SITE (FAS): An area adjacent to a stream or lake which has been acquired by FWP to allow anglers access to a water body. Fishing access sites are funded in part by fishing license fees.

FISHING FROM BOATS/VESSELS: Means fishing while on any boat or vessel. When a water is designated as closed to fishing from boats/vessels, anglers may not fish from a boat or vessel, but may use a boat or vessel to access wade fishing opportunities. An angler must be completely out of the boat or vessel while wade fishing.

FLOAT FISHING: Means any fishing from a boat or vessel, or wade fishing when fishing access is gained by boat or vessel. When a water is designated as closed to float fishing, an angler may not fish from a boat, and may not wade fish in the river or stream, or from the bank or shoreline of the river or stream, when access is gained by boat or vessel.

FLOAT OUTFITTING: Means the operation of any boat or vessel for the commercial purpose of float fishing by a fishing outfitter or fishing guide.

GAFF: A hook attached directly to a pole (metal or wooden shaft) or other device. Use of gaffs is permitted only to help land a fish that was lawfully hooked.

GAME FISH: All species of the family Salmonidae (trout, salmon, grayling, whitefish, cisco and chars); all species of the genus *Sander* (sauger and walleye); all species of the genus *Esox* (northern pike and tiger muskellunge); all species of the genus *Micropterus* (bass); all species of the genus *Polyodon* (paddlefish); all species of the family Acipenseridae (sturgeon); the genus *Lota* (burbot or ling); the species *Perca flavescens* (Yellow perch); all species of the genus *Pomoxis* (crappie); and the species *Ictalurus punctatus* (channel catfish).

- Bull trout are defined as any trout with white leading margins on the lower fins and no

markings on the dorsal fin. (Note: it is unlawful to intentionally fish for bull trout in any waters unless specifically authorized in the Western Fishing District Regulations.)

- Cutthroat trout are defined as any trout with a red or orange stripe under its jaw.
- Sauger are defined as any *Sander* (sauger/walleye) with multiple small, distinct black spots on the spiny (first) dorsal fin ray membranes.

HOOK: A hook is a single, double, or treble point attached to a single shank. A lure with multiple hooks is still considered a single hook.

HOOP NET: Hoop net: a cylindrical or conical net distended by a series of hoops or frames, covered by web netting. The net has one or more internal funnel-shaped throats whose tapered ends are directed inward from the mouth

LEGALLY TAKEN: Any fish caught using legal methods and not immediately released alive.

LENGTH: Measure the greatest length from the tip of the nose to the tip of the tail. Place the fish on a flat surface and squeeze the lobes of the tail fin together so as to achieve the greatest length. Do not measure over the curve of the body.

LIVE BAIT: All non-game fish may be used as live bait except as listed in the Bait Regulations for each Fishing District. Sculpins may not be used as bait live or dead in the Western Fishing District. Live animals such as meal worms, red worms, night crawlers, leeches, maggots, crayfish, reptiles, amphibians and insects may be used as bait on all waters not restricted to artificial flies and lures.

MAINSTEM: In a drainage, the mainstem is the primary stream or river into which most tributaries flow.

MOTORBOAT: A vessel, including a personal watercraft or pontoon, propelled by any machinery/motor/engine of any description, whether or not the machinery/motor/engine is the principal source of propulsion. The term includes boats temporarily equipped with detachable motors/engines.

NON-GAME FISH: Any wild fish not otherwise legally classified by statute or regulation of this state.

NOODLING: A technique for catching fish by hand. It is unlawful to catch fish by hand in any district.

PERMANENT RESIDENCE: The physical abode or structure you maintain as your principal, legal residence. A person may have only one permanent residence.

POSSESSION LIMIT: The number of fish that may be possessed at any time in any form: fresh, stored in freezers or lockers, salted, smoked, dried, canned, or preserved.

RESERVOIR: A body of water artificially impounded behind a man-made dam that extends upstream to the mouth of its inlet stream(s) or river. Reservoirs do not include waters incidentally impounded on a stream or river by a structure such as a check dam for irrigation, a headgate to divert water for irrigation, or similar structures.

Under normal operations, reservoir pool elevation, surface acreage and the mouths of the inlet stream(s) are expected to vary throughout the year. An imaginary line connecting the reservoir shoreline across the mouth of the stream marks the boundary between reservoir and stream/river, and the boundary will move as reservoir levels change. Streams are defined by a sloped streambed that results in a defined current flow between two discernible stream banks. Stream regulations apply upstream from the mouth on the reservoir and often are managed under seasons, limits and special regulations that differ from the reservoir regulations.

SALMONID: Any species of trout, char, salmon, grayling, cisco, or whitefish. All salmonid fish have an adipose fin (small, fleshy fin on the back near the tail).

SEINE: A net, usually suspended between two poles, which is pulled through the water to capture fish for bait. Seines used for this purpose must not exceed 12 feet in length and four feet in width.

SETLINE: A line or lines with or without a pole set to catch fish without the angler being present or within immediate control. The angler's name, phone number, or 9 or 10 digit ALS # must be attached.

SNAGGING: A technique of angling in which a hook or hooks are cast, trolled or lowered into the water and manipulated to embed the hook or hooks into the body of the fish. You have snagged a fish if: (a) you are fishing in a manner that the fish does not voluntarily take the hook in its mouth, or (b) if you accidentally hook the fish in a part of the body other than the mouth.

SPEAR: Any sharp-pointed instrument, with or without barbs, used to capture and/or kill fish by penetrating the body. Usually a spear consists of a shaft with a sharp head or point. Spears may be hand-propelled or propelled with a spring or rubber band.

SPECIES OF CONCERN: Native Montana species with limited habitats and/or limited numbers in the state. Such species are at risk of becoming threatened.

STREAM MOUTH: The downstream point defined as a straight line running from the most downstream extremity on one stream bank to the most downstream extremity on the other stream bank or a point defined and marked by FWP (also see Reservoir definition).

THREATENED SPECIES: Species that may become endangered within the foreseeable future without conservation measures.

TRIBUTARY: Any watercourse that flows into a body of water, including tributaries to a tributary.

VESSEL: Every type of watercraft or boat capable of being used as a means of transportation on water except devices that are propelled entirely by kicking fins and the floater sits in the water, such as inner tubes (motor vehicle type), float tubes (belly boats), air mattresses and sailboards when used without mechanical propulsion by an individual. Contact your local warden for more information.

WARM WATER GAME FISH: Largemouth bass, smallmouth bass, walleye, sauger, black crappie, white crappie, channel catfish, yellow perch, northern pike, pallid sturgeon, paddlefish and tiger muskie.

WASTE OF FISH OR GAME: To purposely waste any part of a game fish suitable for food by transporting, hanging, or storing the carcass or flesh in a manner that renders it unfit for human consumption; or, to abandon or dispose of, in the field or water, the carcass or flesh of any game fish suitable for food; or, to use the carcass or flesh of any game fish as bait except as authorized in the bait regulations.

Enough is Enough!

Help Protect Montana's Fisheries ...

Make the call: 1-800 TIP-MONT (1-800-847-6668)

Western Fishing District

The Western Fishing District includes all waters in Montana west of the Continental Divide.

For additional information about fishing in this district, please call the following regional headquarters Monday-Friday 8:00 a.m. - 5:00 p.m.:

Kalispell.....406-752-5501
Missoula406-542-5500
TDD (Telephone Device for the Deaf).....406-444-1200

Western District Standard Regulations

Closed Waters

Waters operated as fish hatcheries and rearing ponds by FWP and the US Fish and Wildlife Service shall be closed to fishing at all times. Waters in which FWP operates fish traps and other structures are closed to fishing as posted. Certain water-supply lakes, streams and hazardous areas are also closed as posted.

Dam Closures and Use Restrictions

In the interest of public health and safety, certain areas above and below most dams are closed to the public. These restrictions include areas where no public access is allowed below the ordinary high-water mark. The restricted areas are identified and delineated by signs and/or boat restraining systems.

The following dams are closed to all boating, sailing, floating, swimming, fishing or other recreational activity as marked by boat restraining systems or as posted to restrict access. Other dams not listed here may also be posted for restricted access. For more information call the FWP Fishing Access Coordinator at 406-444-7885, or contact the Army Corp of Engineers (ACOE) 406-293-7751, x255, AVISTA 406-847-2729, Bureau of Reclamation (BOR) 406-387-5241, PacificCorp Energy 503-813-5513 or PPL Montana (PPL) 406-533-3415.

Big Fork Dam (PacifiCorp, Lake County)	Libby Dam (ACOE, Lincoln County)
Hungry Horse Dam (BOR, Flathead County)	Noxon Rapids Dam (AVISTA, Sanders County)
Kerr Dam (PPL, Lake County)	Thompson Falls Dam (PPL, Sanders County)

Beaver Ponds

Beaver ponds on streams are governed by the same regulations that govern the streams.

Irrigation Canals and Ditches

Man-made irrigation canals and ditches are open year round unless stated otherwise in exceptions to standard regulations. The same daily and possession limits apply to them as for rivers/streams.

Reservoirs

Under normal operations, reservoir pool elevation, surface acreage and the mouths of the inlet stream(s) are expected to vary throughout the year. An imaginary line connecting the reservoir shoreline across the mouth of the stream marks the boundary between reservoir and stream/river, and the boundary will move as reservoir levels change. Streams are defined by a sloped streambed that results in a defined current flow between two discernible stream banks. Stream regulations apply upstream from the mouth of the reservoir and often are managed under seasons, limits and special regulations that differ from the reservoir regulations.

Flathead Indian Reservation

A tribal permit is required to fish on waters within the exterior boundary of the Reservation. Call tribal headquarters at 406-675-2700 for information.

Transporting Live Fish

An import permit is required to bring live fish into Montana. It is unlawful to possess or transport live fish away from the body of water in which the fish were taken except for transportation of fish for valid (approved) commercial purposes or as authorized by FWP.

Boat and Motor Restrictions

All passengers under the age of 12 must wear a personal floatation device (PFD) at all times when the boat is in motion if the boat is less than 26 feet long. A wearable, U.S. Coast Guard approved PFD must be available for each occupant of any boat.

Methods of Taking Fish

- A valid fishing license is required for all types of fishing.
- Spears and bows count as lines for purposes of determining line limits.
- All unattended fishing devices (crayfish traps, minnow traps, fish traps, setlines, etc.) must have the angler's name and phone number or name and ALS# attached.

Hook and Line Limits

Open Water

Rivers and Streams

- 1 line with 2 hooks per line, with or without a rod. The rod or line must be attended and in the angler's immediate control.

Lakes and Reservoirs

- 2 lines with 2 hooks per line, with or without a rod. Each line must be attended and in the angler's immediate control.

Ice Fishing

Lakes and Reservoirs

- 2 lines with 2 hooks per line on all lakes and reservoirs open to fishing. When a line is used through the ice, the angler need not be in immediate control but must be in the vicinity and in visual contact with the line.

Size of Hole

- In waters not open to spearing, the maximum size hole that may be used for ice fishing is 144 square inches or 12 inches in diameter.
- There is no size limit for a hole used for fishing with a spear.

Shelters: It is illegal to use any ice fishing shelter not conforming to the following rules:

Definition/use: Any hut or enclosure constructed of any material, except ice or snow, for the purpose of ice fishing.

Identification: Identification must be painted on or otherwise affixed to all unattended shelters in legible, 2-inch letters plainly visible at a distance of 100 feet. Identification must include the owner's name and address, name and phone number, or 9/10-digit ALS number. Attended shelters at Brown's Lake and Georgetown Lake must also be identified.

Inspection: Each closed shelter shall have a door that an officer may readily open from the outside for inspection when it is occupied.

Waste and Rubbish Disposal: Owners and occupants of shelters are required to keep their shelters (and the area immediately around them) free from rubbish and trash. Anglers must remove waste materials before they leave for the day.

Removal: Daily removal of shelters is required on:

Brown's Lake (near Ovando)

Echo Lake (near Anaconda)

Georgetown Lake

Removal After the Season: The owner of an ice fishing shelter shall remove it from the ice before it becomes irretrievable at the end of the season, or within five days from receipt of notification from FWP to remove the shelter.

Setlines

- Setlines (unattended lines) are not allowed in the Western Fishing District.

Bow and Arrow

- All waters are closed to bow-and-arrow taking of fish, except as noted under special regulations.

Crossbows

- Illegal.

Nets and Traps

- Landing nets may be used for landing hooked fish. See Bait Regulations for use of nets to harvest bait fish.

Snagging

- All waters are closed to snagging of game and non-game fish, except as otherwise noted under District Exceptions.

Spearing

- All waters are closed to spearing of game and non-game fish, except as noted under special regulations. Rubber or spring-propelled spears may be used only by persons swimming or submerged in the water and may be used only for designated species in designated waters. Only hand-propelled spears may be used through the ice.

Bait Regulations

- Game fish, including yellow perch, may not be used as bait except as authorized below under Dead Bait.
- Possession of live fish or use of live fish as bait is prohibited in the Western Fishing District.
- It is illegal to release live bait of any kind into Montana waters; do not empty any live bait containers at your fishing site.
- Non-game fish except sculpins (genus *Cottus*), carp, goldfish and rainbow smelt may be taken for use as dead bait in the following manner:
 - with hook and line; or
 - with seines no larger than 12 feet by 4 feet; or
 - with minnow traps (the dimensions shall not exceed 24 inches x 12 inches x 12 inches); or
 - with cast nets (maximum 6-foot radius) and dip nets (no larger than 3 feet x 3 feet).
- See Commercial Fishing License requirements for information on commercial harvest permits.
- All unattended fishing devices (crayfish traps, minnow traps, fish traps, setlines, etc.) must have the angler's name and phone number or name and ALS# attached.

Dead Bait

- Non-game fish that are freshly killed or have been preserved by freezing, salting or pickling may be used whole or in pieces as bait on all waters not restricted to artificial lures only. Sculpins (genus *Cottus*) may not be used as bait, live or dead, in the Western Fishing District.
- Whole game fish may not be used as bait.
- Parts/pieces of bass, burbot (ling), black crappie, northern pike, or yellow perch may be used as bait if edible portions are not wasted.
- The eggs of char, cisco, grayling, salmon or trout may be used as bait. Other parts/pieces of salmonids may not be used as bait.

Live Bait

- Live bait may not be imported into Montana without authorization from FWP.
- Live animals such as meal worms, red worms, night crawlers, leeches, maggots, crayfish, reptiles, amphibians and insects may be used as bait on all waters not restricted to artificial flies and lures. Leeches may only be imported into Montana from FWP approved leech dealers. Anglers who import leeches must have in their possession a bill-of-sale from the approved out-of-state leech dealer when fishing with leeches in Montana. A list of approved out-of-state leech dealers may be obtained from FWP by calling 406-452-6181.

General Regulations

Possession limit means the number of fish that you may possess at any time in any form: fresh, stored in freezers or lockers, salted, smoked, dried, canned or otherwise preserved. It is illegal to preserve fish (salted, smoked, dried, canned, or otherwise preserved) before taking them to your permanent residence (the physical abode or structure you maintain as your principal, legal residence) unless those fish can be counted. Mobile recreational vehicles, travel trailers, tents or storage/freezer lockers do not qualify as permanent residences. No person may sell or take for the purpose of sale any fish except as authorized in commercial fishing regulations.

Daily limit means the number of fish you may legally take during a calendar day. It is unlawful to exceed the standard daily limit unless the regulations for the water body where you are fishing specify a different limit. "Legally taken" means fish caught and not immediately released alive. Where catch-and-release is allowed, fish immediately released alive are considered not taken. A fish when landed and not immediately released becomes part of the daily limit of the person originally hooking the fish, even if the fish is donated to another person. If you receive fish from another angler, those fish also become part of your daily limit. You may possess the daily limit allowed only for the body of water on which you are fishing.

Handling and Transporting Legally Taken Fish

- While a person is fishing, or while on the water or on the ice:
 - All fish in possession must be visibly identifiable to species.
 - All fish in possession must be whole with head, skin, fins and tail attached. Gills and entrails may be removed.
- Fish may be dressed and filleted for transport to your permanent residence, unless size limits apply, under the following conditions:
 - All fish can be counted and identified. Two fillets will be counted as one fish. If the catch is frozen prior to transport, each fish or fillet must be packaged so it can be counted.
 - Salmonids (trout, salmon, grayling, char and whitefish): the entire skin must be attached to the fillet for identification.

General Fishing Seasons and Hours

Fishing Hours

- Fishing is allowed at all hours during open fishing seasons unless otherwise specified in District Exceptions to Standard Regulations.

Fishing Season: Rivers and Streams

- Open third Saturday in May through November 30 unless otherwise specified in District Exceptions to Standard Regulations.

Fishing Season: Lakes and Reservoirs

- Open entire year unless otherwise specified in District Exceptions to Standard Regulations.

Western District Standard Daily and Possession Limits

Each angler may take all of the limits listed in the chart, unless otherwise noted in the Western District Exceptions. For species not listed, there are no limits on the number of fish that may be taken or possessed.

Anglers who move from one fishing water to another may possess the limit of fish allowed only for the water on which they are currently fishing.

Species		Daily and Possession Limits
T R O U T	Brook trout	20 daily and in possession.
	Bull trout	All waters are closed to angling for bull trout and all fish must be immediately released unless otherwise authorized in the Western District Exceptions. See Special License Requirements on page 5. Note: Federal rules prohibit the attempted take of bull trout unless specifically authorized by state or tribal regulation.
	Combined Trout includes brown trout, rainbow trout, golden trout and grayling	Lakes/Reservoirs: 5 daily and 10 in possession, only 1 over 22 inches daily. Rivers/Streams: 5 daily and in possession, only 1 over 14 inches.
	Combined Trout in Bob Marshall Complex Wilderness Areas¹ and South Fork Flathead includes rainbow trout, grayling and cutthroat trout	Lakes/Reservoirs: 3 daily and in possession, no size limit. Rivers/Streams: 3 daily and in possession, none over 12 inches. ¹ Applies to all rivers, streams and lakes in the South Fork Flathead River drainage from Hungry Horse Dam to the wilderness boundary and all waters within the boundaries of the Bob Marshall, Great Bear and Scapegoat wilderness areas, unless otherwise specified in the District Exceptions.
	Cutthroat trout	Lakes/Reservoirs: 3 daily and in possession, no size limit. Rivers/Streams: 3 daily and in possession, none over 10 inches.
	Lake trout	10 daily and in possession.
	Bass	5 daily and in possession, no size limit. Third Saturday in May through June 30: 1 daily and in possession, must be over 22 inches.
	Burbot (ling)	5 daily and in possession.
	Kokanee salmon	20 daily and 40 in possession.
	Northern pike	15 daily and in possession.
	White sturgeon	0 - this is an endangered species and all fish must be released immediately. All waters are closed to angling for white sturgeon.
	Whitefish	20 daily and 40 in possession.

2014 GENERAL FISHING SEASON

Western District	Rivers and Streams	Lakes and Reservoirs
	Open third Saturday in May through November 30, unless otherwise specified in Exceptions to Standard Regulations.	Open all year

If you don't find the water you are looking for listed in the district exceptions, use the standard regulations for the district you are fishing in.

Western District Exceptions To Standard Regulations

Check the following list of waters for the body of water you intend to fish in the Western District. If the body of water is not found in the listing of Exceptions, all of the Western District standard seasons, daily/possession limits, and standard regulations apply. Standard regulations apply for species not listed in the Exceptions.

Waterbody/Section	Exceptions to Standard Regulations
-------------------	------------------------------------

ABBOT LAKE

- Bass: 1 daily and in possession from the third Saturday in May to July 1, must be over 22 inches. 5 daily and in possession from July 1 to the third Saturday in May, only 1 over 12 inches.

ALICE CREEK (tributary to Blackfoot River)

- Catch-and-release for cutthroat trout.
- Combined Trout: 3 daily and in possession, no rainbow trout over 12 inches, any size brown trout.

ANACONDA SETTLING POND SYSTEM

- See Warm Springs Wildlife Management Area.

ASHLEY LAKE

Entire lake

- Salmon: 35 daily and 70 in possession.

Inlet tributaries

- Closed entire year.

BEAR CREEK (tributary to Middle Fork Flathead River)

- Angling is closed within 150-yard radius of the stream mouth June 1 through September 30.

BEAVER CREEK (tributary to Blackfoot River)

- Catch-and-release for cutthroat trout.
- Combined Trout: 3 daily and in possession, no rainbow trout over 12 inches, any size brown trout.

BELMONT CREEK (tributary to Blackfoot River)

- Catch-and-release for cutthroat trout.
- Combined Trout: 3 daily and in possession, no rainbow trout over 12 inches, any size brown trout.
- Artificial lures only within 100-yard radius of mouth.

BIG CREEK AND TRIBUTARIES (tributary to North Fork Flathead River)

- Closed entire year.

Mouth of Big Creek

- Angling is closed within 150-yard radius of the stream mouth June 1 through September 30 unless posted at a greater distance.

Waterbody/Section	Exceptions to Standard Regulations
BITTERROOT LAKE (see Little Bitterroot Lake)	
BITTERROOT RIVER (note: river flows south to north)	
Ditches, canals and sloughs between US 93 and east side highway, and between Hamilton and the Florence Bridge	Regulations are the same as the adjacent river section.
Bitterroot River from confluence of the East and West Forks to the mouth, West Fork Bitterroot River downstream from Painted Rocks Dam, and East Fork Bitterroot River downstream from Star Falls	- Catch-and-release for cutthroat trout. - Extended season for northern pike and whitefish and catch-and-release for trout open December 1 to third Saturday in May with aquatic insects, maggots and/or artificial lures only.
West Fork Bitterroot River downstream from Painted Rocks Dam	- Catch-and-release for cutthroat trout and rainbow trout. - Brown trout: 3 daily and in possession.
East Fork Bitterroot River downstream from Star Falls	- Catch-and-release for cutthroat trout and rainbow trout. - Brown trout: 3 daily and in possession.
Bitterroot River from confluence of East and West Forks to the north boundary of the Woodside Bridge FAS	- Catch-and-release for cutthroat trout. - Combined Trout: 3 rainbow or brown trout daily and in possession, only 1 over 14 inches.
North Boundary of the Woodside Bridge FAS to Florence Bridge	- Catch-and-release for all trout. - Artificial lures only.
Florence Bridge to mouth of Bitterroot River	- Catch-and-release for cutthroat trout. - Combined Trout: 3 rainbow or brown trout daily and in possession, only 1 over 14 inches.

Bitterroot River

Note: The Bitterroot River flows from south to north; downstream is to the north.

Waterbody/Section	Exceptions to Standard Regulations
-------------------	------------------------------------

BLACKFOOT RIVER AND TRIBUTARIES

Mainstem and all tributaries except the Clearwater River

- Catch-and-release for cutthroat trout.
- Combined Trout: 3 daily and in possession, no rainbow trout over 12 inches, any size brown trout. (See Clearwater River Drainage for exception.)
- Artificial lures only within 100-yard radius of the mouths of Belmont Creek, Copper Creek, Gold Creek, Monture Creek and North Fork Blackfoot River.

Mainstem only

- Extended season for northern pike and whitefish and catch-and-release for trout open December 1 to third Saturday in May with artificial lures and/or maggots only. Tributaries are closed to fishing.

Mainstem from Landers Fork mouth downstream to the confluence with the Clark Fork River

- Catch-and-release for brook trout. (This regulation is a result of bull trout being misidentified and harvested as brook trout. Brook trout are very rare in this section of river whereas bull trout are common.)

BLANCHARD LAKE (near Whitefish)

- Northern pike: 5 daily and in possession, 4 less than 28 inches and 1 greater than 36 inches.
- Bass: 1 daily and in possession, must be over 22 inches.

BLUE SKY CREEK

- Closed entire year.

BOOTJACK LAKE (near Whitefish)

- Open April 1 through November 30.
- Combined Trout: 1 daily and in possession, 22-inch minimum.
- Artificial lures only.

BUFFALOHEAD POND

- Catch-and-release for trout, except anglers 14 years of age and younger may take 5 trout daily, 10 in possession.

CEDAR CREEK (tributary to Clark Fork River)

- Artificial lures only, including within a 100-yard radius of the mouth.

CHAMBERLAIN CREEK (tributary to Blackfoot River)

- Catch-and-release for cutthroat trout.
- Combined Trout: 3 daily and in possession, no rainbow trout over 12 inches, any size brown trout.

CHURCH SLOUGH

- Open entire year.
- Bass: 1 daily and in possession from the third Saturday in May to July 1, must be over 22 inches. 5 daily and in possession from July 1 to the third Saturday in May, only 1 over 12 inches.
- Hook and Line: 2 rods and/or lines with up to 2 hooks per line all year.

CIBID LAKE

- Combined Trout: 4 under 12 inches and only 1 over 22 inches daily and in possession.

CLARENCE CREEK (near Eureka)

- Closed entire year.

Waterbody/Section	Exceptions to Standard Regulations
CLARK FORK RIVER 	
Upstream from Perkins Lane Bridge, near Warm Springs	• Open entire year. • Catch-and-release only. • Artificial lures only. • Closed to fishing from boats/vessels.
Perkins Lane Bridge, near Warm Springs, to mouth of Flathead River	• Closed to fishing from about 2 1/2 miles upstream from the confluence of the Blackfoot River to about 1/2 mile downstream, as posted. • Extended season for northern pike and whitefish and catch-and-release for trout open December 1 to third Saturday in May with artificial lures and/or maggots only. • Catch-and-release for cutthroat trout. • Combined Trout: 3 daily and in possession, none over 15 inches. • Northern pike: no limit. • Artificial lures only within a 100-yard radius of the mouths of Rattlesnake Creek, Petty Creek, Fish Creek, Cedar Creek, Dry Creek, Trout Creek and St. Regis River.
Mouth of Flathead River to mouth of Thompson River	• Catch-and-release for cutthroat trout. • Whitefish: open entire year with maggots or lures. • Northern pike: open entire year with bait or lures.
Mouth of Thompson River to Idaho Border	• Open entire year. • Combined Trout: 5 daily and 10 in possession, only 1 over 22 inches. • Cutthroat trout: 3 daily and in possession, no size limit. • Hook and Line: 2 lines with up to 2 hooks per line all year.
CLEARWATER RIVER AND TRIBUTARIES (lakes not included, see exceptions for individual lakes elsewhere)	
Clearwater River upstream from the Salmon Lake inlet and all tributaries of the Clearwater River except the West Fork and Marshall Creek	• Closed to fishing from Rainy Lake fish barrier downstream for 100 yards. • Catch-and-release for cutthroat trout. • Northern Pike: no limit, open to spearing. • Snagging: open for salmon from Lake Inez outlet to Seeley Lake inlet from September 15 through November 30. Closed to snagging from Seeley Lake outlet to Salmon Lake inlet.
Clearwater River from Salmon Lake outlet to mouth, including Blanchard Lake and Elbow Lake	• Open entire year. • Catch-and-release for cutthroat trout. • Catch-and-release for bass. • Combined Trout Limit: 3 daily and in possession, none over 12 inches. • Northern Pike: no limit, open to spearing.
COAL CREEK AND TRIBUTARIES (tributary to North Fork Flathead River) —	
	• Closed entire year.
COPPER CREEK (tributary to Blackfoot River) —	
	• Catch-and-release for cutthroat trout. • Combined Trout: 3 daily and in possession, no rainbow trout over 12 inches, any size brown trout. • Artificial lures only, including within a 100-yard radius of the mouth.

Clark Fork River

COTTONWOOD CREEK (tributary to Blackfoot River)

- Catch-and-release for cutthroat trout.
- Combined Trout: 3 daily and in possession, no rainbow trout over 12 inches, any size brown trout.

DALY CREEK (tributary to Skalkaho Creek)

- Catch-and-release for cutthroat trout.

DRY BRIDGE POND

- Catch-and-release for trout, except anglers 14 years of age and younger may take 1 trout daily and in possession.

DRY CREEK (tributary to Clark Fork River)

- Artificial lures only within 100-yard radius of the mouth.

Waterbody/Section	Exceptions to Standard Regulations
DUNHAM CREEK (tributary to Monture Creek, Blackfoot drainage)	- Catch-and-release for cutthroat trout. - Combined Trout: 3 daily and in possession, no rainbow trout over 12 inches, any size brown trout. - Artificial lures only.
EAST FORK BITTERROOT RIVER DOWNSTREAM FROM STAR FALLS	- Extended season for northern pike and whitefish and catch-and-release for trout open December 1 to third Saturday in May with aquatic insects, maggots and/or artificial lures only. - Catch-and-release for rainbow trout and cutthroat trout. - Brown trout: 3 daily and in possession.
ECHO LAKE (near Anaconda)	- Open third Saturday in May through March 31. - Combined Trout: 5 daily and in possession, includes brook trout.
ECHO LAKE (near Bigfork)	- Bass: 1 daily and in possession from the third Saturday in May to July 1, must be over 22 inches. 5 daily and in possession from July 1 to the third Saturday in May, only 1 over 12 inches. - Spearing: open for northern pike through the ice only, daily limit of 2.
ELK CREEK (tributary to Swan River)	Closed entire year.
EMILY SPRINGS (tributary to Georgetown Lake)	Closed entire year.
EUREKA POND	Catch-and-release for trout, except anglers 14 years of age and younger may take 1 trout daily and in possession.
FENNON SLOUGH	- Open entire year. - Bass: 1 daily and in possession from the third Saturday in May to July 1, must be over 22 inches. 5 daily and in possession from July 1 to the third Saturday in May, only 1 over 12 inches. - Hook and Line: 2 rods and/or lines with up to 2 hooks per line all year.
FISH CREEK AND TRIBUTARIES (Clark Fork River drainage)	Entire drainage - Artificial lures only, including within a 100-yard radius of the mouth. Mainstem downstream of the confluence of the South and West forks - Catch-and-release for cutthroat trout. - Combined Trout: 3 rainbow or brown trout in any combination daily and in possession, none over 15 inches.
FISHTRAP CREEK AND TRIBUTARIES (Thompson River drainage)	Excluding Fish Trap Lake - Combined Trout: 3 daily and in possession, none over 10 inches. - Artificial lures only.

Waterbody/Section	Exceptions to Standard Regulations
-------------------	------------------------------------

FLATHEAD LAKE

Flathead Lake north of Flathead Indian Reservation boundary

- Catch-and-release for cutthroat trout.
- Whitefish: 100 daily and in possession.
- Lake trout: 100 daily and in possession, only 1 over 36 inches, and all fish 30 to 36 inches must be released.

NOTE: A *Flathead Indian Reservation Tribal Permit* is required to fish on the southern portion of the lake. Check Tribal Fishing regulations for the south portion of lake.

FLATHEAD RIVER

Confluence of the North and Middle forks (near Blankenship Bridge) downstream to Flathead Lake

- Extended season for whitefish and lake trout, and catch-and-release for other game fish, except northern pike, from December 1 through the third Saturday in May with artificial lures and/or maggots only. From the mouth of the Stillwater River downstream to Flathead Lake, no maggots and no scented artificial lures (infused, saturated or applied).
- Northern pike: extended season for northern pike from December 1 through February 28, artificial lures only.
- Catch-and-release for cutthroat trout.
- Whitefish: 100 daily and in possession.
- Combined Trout: 5 daily and in possession.
- Lake trout: 15 daily and in possession.

Flathead Indian Reservation boundary to mouth

- Open entire year.
- Bass: Open entire year, 5 daily and in possession, no size limit.

FLATHEAD RIVER SLOUGHS

Brenneman, Church, Egan, Fennon, Half Moon, McWennegar, and Rose Creek

- Open entire year.
- Combined Trout: 5 daily and in possession, only 1 over 22 inches.
- Cutthroat trout: 3 daily and in possession, no size limit.
- Hook and Line: 2 rods and/or lines with up to 2 hooks per line all year.

Church and Fennon

- Bass: 1 daily and in possession from the third Saturday in May to July 1, must be over 22 inches. 5 daily and in possession from July 1 to the 3rd Saturday in May, only 1 over 12 inches.

FLINT CREEK

Downstream from Georgetown Lake

- Extended season for whitefish and catch-and-release for trout open December 1 to third Saturday in May with artificial lures and/or maggots only.

FRANK LAKE

Northwest 1/4 of the lake, as posted

- Catch-and-release for rainbow trout from March 15 to May 1.

FRED BURR LAKE (Granite County)

Philipsburg water supply

- Closed entire year.

Waterbody/Section	Exceptions to Standard Regulations
FRENCHTOWN POND	Catch-and-release for bass.
GEORGETOWN LAKE 	- Open third Saturday in May through March 31, except for the South and East shoreline area which is only open July 1 through March 31. South and East shorelines area described as follows: all waters from the shore or within 100 yards of shore in the area extending from a point 200 yards west of Denton's Point Marina (along the shore, including all of Stuart Mill Bay) to a point 200 yards north from the mouth of North Fork Flint Creek. - Salmon: no daily or possession limit. - Combined Trout, includes brook trout: 5 daily and in possession, of which no more than 2 may be brook trout.
Tributaries to Georgetown Lake (Hardtla, North Fork Flint, and Stuart Mill creeks)	- Open July 1 through November 30. - Emily Springs: Closed entire year. - Catch-and-release for brook trout.
GERMAN GULCH	Mainstem and tributaries Catch-and-release for cutthroat trout
GOAT CREEK (tributary to Swan River)	Closed entire year.
GOLD CREEK (tributary to Blackfoot River)	- Catch-and-release for cutthroat trout. - Combined Trout: 3 daily, no rainbow trout over 12 inches, any size brown trout. - Artificial lures only, including within 100-yard radius of the mouth.

RACETRACK POND	• Catch-and-release for trout, except anglers 14 years of age and younger may take 3 trout daily and in possession.
RATTLESNAKE CREEK AND TRIBUTARIES (near Missoula)	
Entire river	• Catch-and-release for cutthroat trout. • Combined Trout: 3 daily and in possession, none over 15 inches. • Artificial lures only, including within 100-yard radius of mouth.
Downstream from the mouth of Beeskove Creek	• Closed to fishing from the mouth of Beeskove Creek to 100 yards downstream of Mountain Water Company Dam.
ROCK CREEK (near Missoula)	
From the confluence of the East and West forks, near Phillipsburg, to the mouth	• Extended season for whitefish and catch-and-release for trout open December 1 to third Saturday in May with artificial lures and/or maggots only. • Combined Trout: 3 brown trout daily and in possession. Catch-and-release for rainbow trout and cutthroat trout. • Artificial lures only, except anglers 14 years of age and younger may use bait during the general season. • Closed to fishing from boats/vessels July 1 through November 30.
SALMON LAKE AND TRIBUTARIES	• Catch-and-release for bass. • Northern pike: no limit. • Salmon: 5 daily and 10 in possession. • Spearing: open for northern pike.
SEELEY LAKE 	• <i>Bass: no daily or possession limit for entire year.</i> • Northern pike: no limit. • Salmon: 5 daily and 10 in possession. • Snagging: open for salmon October 15 through December 31, 20 salmon daily and 40 in possession. • Spearing: open for northern pike.
SHADY LAKE POND	• Catch-and-release for trout, except anglers 14 years of age and younger may take 1 trout daily and in possession.

Waterbody/Section	Exceptions to Standard Regulations
SILVERBOW CREEK AND TRIBUTARIES	
Mainstem and Tributaries	Catch-and-release for cutthroat trout
SILVER'S LAGOON aka McCormick Pond (Missoula)	- Open April 1 through October 30. 3 fish daily and in possession, any species. - Open to fishing for anglers 14 years of age and younger.
SILVER LAKE (near Anaconda)	<i>Closed to fishing July 1 through September 30 within a 50 yard radius of the mouth of Storm Lake Creek.</i>
SKALKAHO CREEK (tributary to Bitterroot River)	Catch-and-release for cutthroat trout, includes Daly Creek.
SOUTH FORK FLATHEAD RIVER DRAINAGE	
All waters upstream from Hungry Horse Dam, including Hungry Horse Reservoir and tributaries except Meadow Creek section (see below)	Combined Trout: 3 daily and in possession, no fish over 12 inches in rivers and streams, no size limit in lakes. Includes rainbow trout, cutthroat trout and grayling.
Mainstem upstream from Hungry Horse Reservoir (from Crossover Boat Ramp south and upstream to the confluence of Youngs and Danaher creeks)	Bull trout: catch-and-release from the third Saturday in May through July 31. A Hungry Horse/South Fork Flathead Bull Trout Catch Card must be in possession when fishing for bull trout. See Special License requirements for application information. All bull trout must be released immediately. It is unlawful to possess a live bull trout for any reason.
Meadow Creek Bridge to Spotted Bear foot bridge and tributaries	- Catch-and-release only. - Artificial lures only.
Hungry Horse Dam downstream to Devil's Elbow and tributaries	Closed entire year.
Devil's Elbow downstream to mouth and tributaries	- Extended season for whitefish and catch-and-release for trout open December 1 to third Saturday in May with artificial lures and/or maggots only. - Catch-and-release for cutthroat trout.
SQUEEZER CREEK (tributary to Swan River)	Closed entire year.
ST REGIS RIVER	- Catch-and-release for cutthroat trout. - Combined Trout: 3 rainbow or brown trout in any combination daily and in possession, none over 15 inches. - Artificial lures only within 100-yard radius of the mouth.
STILLWATER RIVER AND TRIBUTARIES (Flathead River drainage)	Open entire year from mouth of Sunday Creek to lower Stillwater Lake.
STORM LAKE CREEK (tributary to Silver Lake near Anaconda)	<i>Closed to fishing July 1 through September 30 from the Silver Lake diversion structure located near the stream mouth down to where the stream enters Silver Lake.</i>

Waterbody/Section	Exceptions to Standard Regulations
STUART MILL CREEK (tributary to Georgetown Lake)	• Open July 1 through November 30. • Catch-and-release for brook trout. • Combined Trout: 5 daily and in possession.
SWAN LAKE 	• Bull trout: Catch-and-release only. All bull trout must be released immediately. It is unlawful to possess a live bull trout for any reason.
SWAN RIVER	• Closed to angling June 1 through September 30 within a 150-yard radius of the Woodward Creek and Lion Creek stream mouths, unless posted at a greater distance.
Piper Creek Bridge downstream to Swan Lake	• Catch-and-release for cutthroat trout and rainbow trout. • Artificial lures only.
Swan Lake outlet downstream to the Highway 35 Bridge	• Open entire year. • Catch-and-release for cutthroat trout.
TALLY LAKE	• Lake trout: 1 daily and in possession, must be over 42 inches.
THOMPSON RIVER	Entire river • Catch-and-release for cutthroat trout and rainbow trout. • Brown trout: 3 daily and in possession, any size. • Artificial lures only, except anglers 14 years of age and younger may use bait. Upstream from mouth of Little Thompson River • Closed to fishing December 1 to third Saturday in May. Mouth of Little Thompson River to the confluence with the Clark Fork River • Extended season for whitefish and catch-and-release for trout open December 1 to third Saturday in May with artificial lures and/or maggots only.
TOBACCO RIVER	• Snagging: open for salmon September 15 through November 30. Standard limits apply.
TRAIL CREEK AND TRIBUTARIES (Yakinikak, N. Fork Flathead River drainage)	• Closed entire year downstream from mouth of Thoma Creek.
TROUT CREEK (tributary to Clark Fork River)	• Artificial lures only within 100-yard radius of the mouth.
TROY POND	• Catch-and-release for trout, except anglers 14 years of age and younger may take 1 trout daily and in possession.
UPPER STILLWATER LAKE	• Spearing: open for northern pike through the ice only.
UPPER THOMPSON LAKE	• Salmon: 10 daily and 20 in possession. • Spearing: open for northern pike through the ice only.

Waterbody/Section	Exceptions to Standard Regulations
UPSATA LAKE	
	• Catch-and-release for bass. • Northern pike: no limit. • Spearing: open for northern pike.
WARM SPRINGS CREEK (near Anaconda)	
Upstream of Myers Dam	• Open from the third Saturday in May through November 30.
Myers Dam to Warm Spring Wildlife Management Area (WMA)	• Open from the third Saturday in May through November 30 <i>except for the section from Myers Dam downstream 50 yards which is closed to fishing July 1 through September 30.</i> • Extended season: catch-and-release for trout December 1 to third Saturday in May with artificial lures only.
Warm Springs Wildlife Management Area (WMA)	• Open entire year. See Warm Springs WMA for additional regulations.
WARM SPRINGS WILDLIFE MANAGEMENT AREA (WMA)	
All waters	• Also see Job Corps Ponds. • All ponds and canals open August 15 through September 30 including Job Corps Ponds and Ducks Unlimited Ponds. • Catch-and-release only. See Kid's Pond and Gravel Pit Pond for exceptions. • Artificial lures only. See Kid's Pond and Gravel Pit Pond for exceptions. • Motorized boats/vessels prohibited.
Kids pond at WSWMA headquarters	• Open entire year. • Combined Trout: 2 daily and in possession. • Bait may be used. • Open to fishing by anglers 14 years of age and younger only. One rod per child.
Gravel Pit Pond adjacent to Highway 48	• Open entire year. • Combined Trout: 2 daily and in possession. • Bait may be used.
Hog Hole	• Open May 25 through September 30. No trespassing on islands.
Pond 3	• Open May 25 through November 30 to fishing from non-motorized vessels.
Mill-Willow Bypass, Warm Springs Creek and Clark Fork River	• Open entire year. • Closed to fishing from boats/vessels.

Warm Springs Wildlife Management Area

Waterbody/Section	Exceptions to Standard Regulations
WEST FORK BITTERROOT RIVER DOWNSTREAM FROM PAINTED ROCKS DAM	- Extended season for northern pike and whitefish and catch-and-release for trout open December 1 to third Saturday in May with aquatic insects, maggots and/or artificial lures only. - Catch-and-release for cutthroat trout and rainbow trout. - Brown trout: 3 daily and in possession.
WEST FORK CLEARWATER RIVER AND TRIBUTARIES	Entire drainage - Artificial lures only. West Fork Clearwater River upstream of confluence with Marshall Creek - Closed entire year.
WEST FORK QUARTZ CREEK (Kootenai River drainage)	Open third Saturday in May through July 15.
WEST FORK THOMPSON RIVER AND TRIBUTARIES	- Combined Trout: 3 daily and in possession, none over 10 inches. - Artificial lures only.
WHALE CREEK AND TRIBUTARIES (North Fork Flathead River drainage)	Closed entire year downstream from Whale Creek Falls.
WHITEFISH LAKE 	Lake trout: 20 daily and in possession, only 1 over 36 inches. All fish 30 to 36 inches must be released.
WHITEFISH RIVER	Open entire year from Whitefish Lake to State Highway 40 Bridge.
WILLOW CREEK (near Warm Springs)	From Stewart Street Bridge to the Warm Springs WMA - Catch-and-release only. - Artificial lures only.
WOODWARD CREEK	Closed to angling within a 150-yard radius of the stream mouth June 1 through September 30, unless posted at a greater distance.

Central Fishing District

Areas excluded from fishing districts.
Additional regulations may apply.
Other federal or tribal permits may be required.

0 20 40
Miles

The Central Fishing District includes all waters in Montana east of the Continental Divide, (including the Belly and St Mary's River drainages) and west of the following described boundary: Interstate 15 from the Montana-Canada border south to its junction with Hwy 2 at Shelby, then east on Hwy 2 to Chester, then south on Hwy 223 to State Route 80 at Fort Benton, then southeasterly along State Route 80 to its junction with State Route 81, then easterly on State Route 81 to its junction with U.S. Hwy 191, then northeasterly along U.S. Hwy 191 to its junction with State Route 19, then south on State Route 19 to its junction with U.S. Hwy 87 at Grassrange, then south on U.S. Hwy 87 to its junction with U.S. Hwy 12 at Roundup, then west on U.S. Hwy 12 to its junction with State Route 3 at Lavina, then south on State Route 3 to its junction with Interstate 90 at Billings, then easterly and southerly on Interstate 90 to the first crossing of the Little Bighorn River, then southerly along the west bank of the Little Bighorn River to the Montana-Wyoming border.

Note: Roadways that are used as boundaries between the Central and Eastern Fishing Districts are interpreted to be in the Central Fishing District.

For additional information regarding the boundaries in this fishing district, please call the following regional headquarters Monday-Friday 8:00 a.m. - 5:00 p.m.:

Central District Standard Regulations

Closed Waters

Waters operated as fish hatcheries and rearing ponds by FWP and the US Fish and Wildlife Service shall be closed to fishing at all times. Waters in which FWP operates fish traps and other structures are closed to fishing as posted. Certain water-supply lakes, streams and hazardous areas are also closed as posted.

Dam Closures and Use Restrictions

In the interest of public health and safety, certain areas above and below most dams are closed to the public. These restrictions include areas where no public access is allowed below the ordinary high-water mark. The restricted areas are identified and delineated by signs and/or boat restraining systems.

The following dams are closed to all boating, sailing, floating, swimming, fishing or other recreational activity as marked by boat restraining systems or as posted to restrict access. Other dams not listed here may also be posted for restricted access. For more information call the FWP Fishing Access Coordinator at 406-444-7885, or contact the Bureau of Reclamation (BOR) 406-247-7298 or PPL Montana (PPL) 406-533-3415.

Black Eagle Dam (PPL, Cascade County)	Morony Dam (PPL, Chouteau County)
Canyon Ferry Dam (BOR, Lewis & Clark County)	Rainbow Dam (PPL, Cascade County)
Clark Canyon Dam (BOR, Beaverhead County)	Ruby Dam (PPL, Madison County)
Cochrane Dam (PPL, Cascade County)	Ryan Dam (PPL, Cascade County)
Hauser Dam (PPL, Lewis & Clark County)	Tiber Dam (BOR, Liberty County)
Hebgen Dam (PPL, Gallatin County)	Yellowtail Dam (BOR, Bighorn County)
Holter Dam (PPL, Lewis & Clark County)	Yellowtail Afterbay Dam
Madison Dam (PPL, Madison County)	(BOR, Bighorn County)

Beaver Ponds

Beaver ponds on streams are governed by the same regulations that govern the streams.

Irrigation Canals and Ditches

Man-made irrigation canals and ditches are open year round unless stated otherwise in exceptions to standard regulations. The same daily and possession limits apply to them as for rivers/streams.

Reservoirs

Under normal operations, reservoir pool elevation, surface acreage and the mouths of the inlet stream(s) are expected to vary throughout the year. An imaginary line connecting the reservoir shoreline across the mouth of the stream marks the boundary between reservoir and stream/river, and the boundary will move as reservoir levels change. Streams are defined by a sloped streambed that results in a defined current flow between two discernible stream banks. Stream regulations apply upstream from the mouth on the reservoir and often are managed under seasons, limits and special regulations that differ from the reservoir regulations.

Transporting Live Fish

An import permit is required to bring live fish of any kind into Montana. It is unlawful to possess or transport any live fish away from the body of water in which the fish were taken without authorization from FWP with the following exceptions:

- 1) transportation of fish for authorized commercial purposes (eg. Baitfish Seining Permit, Commercial Fish Ponds, Commercial Fishing, etc.);
- 2) use as live bait subject to restrictions imposed by the F&W Commission for the taking, transport and use of live baitfish (see "Bait Regulations" below); or
- 3) it is unlawful to possess or transport live fish, other than authorized baitfish, on roadways that form the boundary between the Eastern and Central fishing districts.

Boat and Motor Restrictions

A complete, updated, copy of Montana Boating Laws can be obtained from any FWP office or FWP license providers. All passengers under the age of 12 must wear a PFD at all times when the boat is in motion if the boat is less than 26 feet long. A wearable, U.S. Coast Guard approved PFD must be available for each occupant of any boat.

Methods of Taking Fish

- A valid fishing license is required for all types of fishing.
- Spears and bows are counted as lines for purposes of determining line limits.
- When multiple lines are allowed on a body of water, the maximum number of lines allowed shall not exceed the greater of either the attended lines or the setlines. For example, if an angler wants to spear for northern pike on Lake Frances in the winter (where the limit is 2 attended lines all year or 6 setlines through the ice), he/she may have a maximum of only 5 setlines in use if he/she is using one spear, for a total of 6 lines.
- All unattended fishing devices (crayfish traps, minnow traps, fish traps, setlines, etc.) must have the angler's name and phone number or name and ALS# attached.

Hook and Line Limits

Open Water

Rivers and Streams

- 1 line with 2 hooks per line, with or without a rod. The rod or line must be attended and in the angler's immediate control.

Lakes and Reservoirs

- 2 lines with 2 hooks per line. All lines must be attended and in the angler's immediate control.

Ice Fishing

Lakes and Reservoirs

- 2 lines with 2 hooks per line through the ice on lakes, reservoirs, or ponds open to fishing. When a line is used through the ice, the angler need not be in immediate control, but must be in the vicinity and in visual contact with the line.

Size of Hole

- In waters not open to spearing, the maximum size hole that may be used for ice fishing is 144 square inches or 12 inches in diameter.
- There is no size limit for a hole used for fishing with a spear.

Shelters: It is illegal to use any ice fishing shelter not conforming to the following rules:

Definition/use: Any hut or enclosure constructed of any material, except ice or snow, for the purpose of ice fishing.

Identification: Identification must be painted on or otherwise affixed to all unattended shelters in legible, 2-inch letters plainly visible at a distance of 100 feet or 9/10-digit ALS number. Attended shelters at Clark Canyon Reservoir, Deadman's Basin, Hauser Reservoir, Lake Francis and Lake Helena must also be identified.

Inspection: Each closed shelter shall have a door that an officer may readily open from the outside for inspection when it is occupied.

Waste and Rubbish Disposal: Owners and occupants of shelters are required to keep their shelters (and the area immediately around them) free from rubbish. Anglers must remove waste materials before they leave for the day.

Daily Removal: Daily removal of shelters is required on:

Fitzpatrick Lake • Deadmans Basin • Helena Valley Regulating Reservoir

Sunrise-Sunset Removal: Shelters may not be placed on the ice prior to sunrise and must be removed prior to sunset each day on Hauser Reservoir and Lake Helena.

Remove After the Season: The owner of an ice fishing shelter shall remove it from the ice before it becomes irretrievable at the end of the season, or within five days from receipt of notification from FWP to remove the shelter.

Setlines

- Setlines may be used only on waters specified in District Exceptions.
- Setlines must be checked by the fisherman at least once every 24 hours.
- The angler's name and phone number or name and 9/10-digit ALS# must be attached to each setline.
- Setlines shall not be attached to jugs or other floating devices.

Bow and Arrow

- Waters open to angling are open to taking non-game fish with bow and arrow.

Crossbows

- Illegal.

Nets and Traps

- Landing nets may be used for landing hooked fish. See Bait Regulations for use of nets to harvest bait fish.

Snagging

- Snagging of fish is allowed only on waters specified in District Exceptions.

Spearing

- In all waters open to fishing, non-game fish may be taken with rubber or spring-propelled spears by persons swimming or submerged. Rubber or spring-propelled spears may be used only by persons swimming or submerged in the water and may be used only for designated species in designated waters.

Bait Regulations

- Game fish, including yellow perch, may not be used as bait (live or dead) except as authorized below under Dead Bait.
- Possession of live non-game fish is prohibited on waters closed to using live fish as bait.
- It is illegal to release live bait of any kind into Montana waters; do not empty any live bait containers at your fishing site.
- Where live fish may be used as bait (see list below under Live Bait), legal non-game fish may be taken for use as bait in the following manner:
 - with hook and line; or
 - with seines no larger than 12 feet by 4 feet; or
 - with minnow traps (the dimensions shall not exceed 24 inches x 12 inches x 12 inches); or
 - with cast nets (maximum 6-foot radius) and dip nets (no larger than 3 feet x 3 feet).
- Legal non-game fish, except sculpins (genus *Cottus*) which must be killed prior to transport, may only be transported live to or from:
 - waters where live non-game fish may be used as bait in the Central Fishing District, or
 - anywhere within the boundaries of the Eastern Fishing District.
- On waters within the Central Fishing District that do not allow the use of live bait and are not restricted to artificial flies and lures, sculpins (genus *Cottus*) may be collected and used as dead bait. Collection screens or nets may not exceed four (4) feet in length on any side. Sculpins must be killed immediately upon collection and may not be used as live bait. [Note: Sculpins (genus *Cottus*) may not be used for bait in the Western Fishing District.]
- See Commercial Fishing License requirements for information on commercial harvest permits.
- All unattended fishing devices (crayfish traps, minnow traps, fish traps, setlines, etc.) must have the angler's name and phone number or name and ALS# attached.
- Areas within the Central Fishing District that have been identified as contaminated with Eurasian watermilfoil have additional bait restrictions as described on the next page.

Dead Bait

- Non-game fish that are freshly killed or have been preserved by freezing, salting or pickling may be used as bait on all waters not restricted to artificial lures only. Heads and entrails of non-game fish may also be used as bait.
- Whole game fish may not be used as bait.
- Parts/pieces of bass, burbot (ling), channel catfish, crappie, northern pike, paddlefish, sauger, shovelnose sturgeon, tiger muskellunge, walleye, or yellow perch may be used as bait if edible portions are not wasted.
- The eggs of char, cisco, grayling, salmon or trout may be used as bait. Parts/pieces of salmonids may not be used as bait.

Live Bait

- Live bait fish may not be imported into Montana, except by permit for use in Bighorn Lake and Afterbay Reservoir. Bait fish collected in the Bighorn River drainage of Wyoming may be imported under a permit issued by FWP. For a permit, contact the FWP Fisheries Division at 2300 Lake Elmo Drive, Billings MT 59105 or call (406)247-2940.
- Live animals such as meal worms, red worms, night crawlers, leeches, maggots, crayfish, reptiles, amphibians and insects may be used as bait on all waters not restricted to artificial flies and lures. Leeches may only be imported into Montana from FWP-approved leech dealers. Anglers who import leeches must have in their possession a bill-of-sale from the approved out-of-state leech dealer when fishing with leeches in Montana. A list of approved out-of-state leech dealers may be obtained from FWP by calling 406-452-6181.
- Non-game fish that may be used as live bait in the Central Fishing District include all non-game species except black bullheads, bluegill, carp, goldfish, green sunfish, pumpkinseed, rainbow smelt, sculpins, stonecats and yellow bullheads.
- Live non-game fish may be used as bait only in the following waters:
 - Bighorn Lake and Afterbay Reservoir
 - Bighorn River—Afterbay Dam to the cable 600 feet downstream, and downstream from the Bighorn FAS
 - Clarks Fork Yellowstone River—downstream from the bridge at Bridger
 - Marias River and tributaries downstream from I-15
 - Missouri River downstream from Morony Dam
 - Muddy Creek Drainage near Vaughn, including all streams and drainage canals
 - Teton River and tributaries downstream from I-15
 - Tiber Reservoir (Lake Elwell), Toole and Liberty counties
 - Yellowstone River and all streams and ditches in the drainage downstream from the mouth of the Clarks Fork (except the section of the Bighorn River between the cable 600 feet downstream from Afterbay Dam and the Bighorn FAS).

Bait restrictions in Eurasian watermilfoil contaminated areas

Eurasian watermilfoil is an invasive aquatic plant that has become established in some Montana waters. This water weed is easily spread from one body of water to another primarily by plant fragments. Areas within the Central Fishing District that have been identified as contaminated with Eurasian watermilfoil are:

- Jefferson River
- Toston Reservoir
- Missouri River from the confluence of the three forks to the headwaters of Canyon Ferry Reservoir.

The additional bait restrictions within the contaminated areas are:

- The collection of bait animals, including commercial seining is not permitted.
- Transport of live aquatic bait animals to and from these contaminated areas is allowed only in clean water (e.g. transport minnows and leeches in well water).

Anglers are asked to inspect all bait buckets and live wells to ensure that **NO PLANT FRAGMENTS** are present when leaving a body of water. It takes only a small fragment of Eurasian watermilfoil (less than 2 inches) to start a new plant and infest a body of water.

General Regulations

Possession limit means the number of fish that you may possess at any time in any form: fresh, stored in freezers or lockers, salted, smoked, dried, canned or otherwise preserved. It is illegal to preserve fish (salted, smoked, dried, canned, or otherwise preserved) before taking them to your permanent residence (the physical abode or structure you maintain as your principal, legal residence) unless those fish can be counted. Mobile recreational vehicles, travel trailers, tents or storage/freezer lockers do not qualify as permanent residences. No person may sell or take for the purpose of sale any fish except as authorized in commercial fishing regulations.

Daily limit means the number of fish you may legally take during a calendar day. It is unlawful to exceed the standard daily limit unless the regulations for the water body where you are fishing specify a different limit. "Legally taken" means fish caught and not immediately released alive. Where catch and release is allowed, fish immediately released alive are considered not taken. A fish when landed and not immediately released becomes part of the daily limit of the person originally hooking the fish, even if the fish is donated to another person. If you receive fish from another angler, those fish also become part of your daily limit. You may possess the daily limit allowed only for the body of water on which you are fishing.

Handling and Transporting Legally Taken Fish

While a person is fishing, or while on the water, or on the ice:

- All fish in possession must be visibly identifiable to species.
- All fish in possession must be whole with head, skin, fins and tail attached. Gills and entrails may be removed.

Fish may be dressed and filleted for transport to your permanent residence, unless size limits apply, under the following conditions:

- All fish can be counted and identified. Two fillets will be counted as one fish. If the catch is frozen prior to transport, each fish or fillet must be packaged so it can be counted.
- Salmonids (trout, salmon, grayling, char and whitefish): the entire skin must be attached to the fillet for identification.

General Fishing Seasons and Hours

Fishing Hours

Fishing is allowed at all hours during open fishing seasons unless otherwise specified in District Exceptions to Standard Regulations.

Fishing Season: Lakes and Reservoirs

Open entire year unless otherwise specified in District Exceptions to Standard Regulations.

Fishing Season: Rivers and Streams

Open third Saturday in May through November 30 unless otherwise specified in District Exceptions to Standard Regulations.

Enough is Enough!

Help Protect Montana's Fisheries ...

Turn In Poachers by calling TIP-MONT – 1-800-847-6668

Central District Standard Daily and Possession Limits

Each angler may take all of the limits listed in the chart, unless otherwise noted in the Central District Exceptions. For species not listed, there are no limits on the number of fish that may be taken or possessed.

Anglers who move from one fishing water to another may possess the limit of fish allowed only for the water on which they are currently fishing.

Species		Daily and Possession Limits
T R O U T	Brook trout	20 daily and in possession.
	Combined Trout includes brown trout, rainbow trout, golden trout and grayling	Lakes/Reservoirs: 5 daily and 10 in possession, includes cutthroat trout. Rivers/Streams: 5 daily and in possession, only 1 over 18 inches. All grayling must be released immediately.
	Cutthroat trout	Lakes/Reservoirs: included in Combined Trout daily and possession limit. Rivers/Streams: all cutthroat trout must be released immediately.
	Lake trout	3 daily and in possession.
Bass		5 daily and in possession.
Burbot (ling)		5 daily and in possession.
Catfish		10 daily and 20 in possession.
Northern pike		10 daily and in possession.
Pallid sturgeon		0 - this is an endangered species and all fish must be released immediately. All waters are closed to fishing for pallid sturgeon.
Salmon (Kokanee & Chinook)		10 daily and in possession.
Sauger/Walleye		5 daily and 10 in possession.
Shovelnose sturgeon		5 daily and in possession, none over 40 inches.
Tiger muskellunge		1 daily and in possession, must be over 40 inches.
Whitefish		20 daily and 40 in possession.

Central District

2014 GENERAL FISHING SEASON

Central District	Rivers and Streams	Lakes and Reservoirs
	Open third Saturday in May through November 30, unless otherwise specified in Exceptions to Standard Regulations.	Open all year
If you don't find the water you are looking for listed in the district exceptions, use the standard regulations for the district you are fishing in.		

Central District Exceptions To Standard Regulations

Check the following list of waters for the body of water you intend to fish in the Central District. If the body of water is not found in the listing of Exceptions, all of the Central District standard seasons, daily/possession limits, and standard regulations apply. Standard regulations apply for species not listed in the Exceptions.

Waterbody/Section	Exceptions to Standard Regulations
ABSAROKA-BEARTOOTH WILDERNESS LAKES	Combined Trout: 10 daily and in possession.
ALDER GULCH CREEK AND DREDGE PONDS 	Virginia City to mouth Open entire year.
ANTELOPE BUTTE LAKE aka Ostle Reservoir (Teton County)	Open May 15 at 12:00 noon through November 30.
ARMSTRONG SPRING CREEK	- Open entire year. - Catch-and-release only. - Artificial lures only.
AROD LAKES aka Eyraud Lakes	- Hook and Line/Setlines: 6 lines with 2 hooks per line through the ice. - Spearing: open for northern pike and non-game fish through the ice only.
AXOLOTL LAKES	Catch-and-release for grayling.
BAD CANYON CREEK	Catch-and-release for cutthroat trout.
BADGER CREEK DRAINAGE (near Heart Butte)	Downstream from confluence of North Badger and South Badger creeks within National Forest Combined Trout: 3 daily and in possession, none over 12 inches, includes cutthroat trout.
BEAN LAKE	Combined Trout: 3 daily and in possession, only 1 over 18 inches.
BEAVER CREEK (tributary to Canyon Ferry Reservoir)	Mouth to US Highway 12 Open June 15 through September 30.
BEAVER CREEK (tributary to Missouri River below Hauser Dam)	Open June 15 through November 30.

Waterbody/Section**Exceptions to Standard Regulations****BEAVERHEAD RIVER****Entire River**

- Combined Trout: 5 daily and in possession, 1 over 18 inches, only 1 may be a rainbow trout.

Clark Canyon Dam to Pipe Organ Bridge

- Open third Saturday in May through November 30.

High Bridge FAS to Henneberry FAS

- Closed to float fishing by nonresidents and float outfitting on each Saturday from the third Saturday in May through Labor Day.

Henneberry FAS to Pipe Organ Bridge

- Closed to float fishing by nonresidents and float outfitting on each Sunday from the third Sunday in May through Labor Day.

Downstream from Pipe Organ Bridge

- Open entire year.

Highway 91 South Bridge (Tash Bridge) to Selway Bridge

- Closed to float outfitting from the third Saturday in May through Labor Day.

Beaverhead River

Central District

Waterbody/Section

Exceptions to Standard Regulations

BELT CREEK

Downstream from the Riceville Bridge

- Open entire year.

BIG COULEE CREEK (tributary to Highwood Creek, near Great Falls)

- Closed entire year.

BIG HOLE RIVER

Entire river

- Extended season for whitefish and catch-and-release for trout open December 1 to the third Saturday in May with artificial lures and/or maggots only.
- All float users are limited to a total of 2 launches at or near each official access site each day. See Big Hole River map for official access sites.

Headwaters to North Fork Big Hole River

- Brook trout: open entire year.

Headwaters to Mudd Creek FAS

- Closed to float outfitting from the third Saturday in May through Labor Day.

Headwaters to Dickie Bridge

- Combined Trout: 5 daily and in possession, no size restriction.

Mudd Creek FAS to Fishtrap FAS

- Closed to float outfitting on each Tuesday from the third Saturday in May through Labor Day.

Fishtrap FAS to East Bank BLM FAS

- Closed to float outfitting on each Thursday from the third Saturday in May through Labor Day.

East Bank BLM FAS to Jerry Creek FAS

- Closed to float outfitting on each Wednesday from the third Saturday in May through Labor Day.

Dickie Bridge to Divide Bridge (Divide FAS)

- Artificial lures only.

Jerry Creek FAS to Divide FAS

- Closed to float fishing by nonresidents and float outfitting on each Saturday from the third Saturday in May through Labor Day.

Divide Bridge (Divide FAS) to Melrose Bridges (Salmon Fly FAS)

- Closed to float fishing by nonresidents and float outfitting on each Sunday from the third Saturday in May through Labor Day.
- Artificial lures only.

Miles City	406-234-0900
TDD (Telephone device for the deaf)	406-444-1200

Eastern District Standard Regulations

Closed Waters

Waters operated as fish hatcheries and rearing ponds by FWP and the US Fish and Wildlife Service shall be closed to fishing at all times. Waters in which FWP operates fish traps and other structures are closed to fishing as posted. Certain water-supply lakes, streams and hazardous areas are also closed as posted.

Dam Closures and Restrictions

In the interest of public health and safety, certain areas above and below most dams are closed to the public. These restrictions include areas where no public access is allowed below the ordinary high-water mark. The restricted areas are identified and delineated by signs and/or boat restraining systems.

The following dams are closed to all boating, sailing, floating, swimming, fishing or other recreational activity as marked by boat restraining systems or as posted to restrict access. Other dams not listed here may also be posted for restricted access. For more information call the FWP Fishing Access Coordinator at 406-444-7885, or contact the Bureau of Reclamation (BOR) at 406-247-7296 or the Army Corp of Engineers (ACOE) 406-293-7751.

- Anita Dam (BOR, Yellowstone County)
- Fort Peck Dam (ACOE, Valley County)
- Fresno Dam (BOR, Hill County)

Beaver Ponds

Beaver ponds on streams are governed by the same regulations that govern the streams.

Fort Peck Reservation - Tribal Boundary Water Regulations

Non-tribal members licensed through the State of Montana and/or Fort Peck Tribes that are fishing in waters that form the exterior boundaries of the Reservation -- Big Muddy Creek, Missouri River and/or Milk River -- are permitted to harvest the following limits:

Burbot (Ling)	5 daily and in possession
Channel Catfish	10 daily and 20 in possession
Northern Pike	10 daily and in possession
Paddlefish	1 per season and in possession
Sauger/Walleye	5 daily and 10 in possession
Pallid Sturgeon	0 (all waters are closed to fishing for pallid sturgeon)
Shovelnose Sturgeon	5 daily and in possession

These harvest limits cannot be exceeded, even if the angler possesses both tribal and state licenses, and fishes on and/or off the reservation on the same day.

Non-tribal members licensed through the State of Montana and/or the Fort Peck Tribes, that are fishing in exterior boundary waters — Big Muddy Creek, Missouri River and/or Milk River — are limited to a maximum of 6 lines with 6 hooks per line. Unattended lines are required to be identified with the angler's name and/or license number. Setlines shall not be attached to jugs or floating devices.

Irrigation Canals and Ditches

Man-made irrigation canals and ditches are open year round unless stated otherwise in exceptions to standard regulations. The same daily and possession limits apply to them as for rivers/streams.

Reservoirs

Under normal operations, reservoir pool elevation, surface acreage and the mouths of the inlet stream(s) are expected to vary throughout the year. An imaginary line connecting the reservoir shoreline across the mouth of the stream marks the boundary between reservoir and stream/river, and the boundary will move as reservoir levels change. Streams are defined by a sloped streambed that results in a defined current flow between two discernible stream banks. Stream regulations apply upstream from the mouth on the reservoir and often are managed under seasons, limits and special regulations that differ from the reservoir regulations.

74 Turn In Poachers. Enough is Enough! Make the call: 1-800 TIP-MONT (1-800-847-6668)

Eastern District Standard Regulations

Transporting Live Fish

An import permit is required to bring live fish of any kind into Montana. It is unlawful to possess or transport any live fish away from the body of water in which the fish were taken without authorization from FWP with the following exceptions:

- 1) Transportation of fish for authorized commercial purposes (eg. Baitfish Seining Permit, Commercial Fish Ponds, Commercial Fishing, etc.);
- 2) Use as live bait subject to restrictions imposed by the F&W Commission for the taking, transport and use of live baitfish (see “**Bait Regulations**” for Eastern Fishing District); or
- 3) Within the boundaries of the Eastern Fishing District. It is unlawful to possess or transport live fish, other than authorized baitfish, on roadways that form the boundary between the Eastern and Central fishing districts.
- 4) Transport of live baitfish to and from areas contaminated with Eurasian watermilfoil (Fort Peck Reservoir, Fort Peck Dredge cut ponds, and the Missouri River from Fort Peck Dam to the mouth of the Milk River) is allowed ONLY in clean water (e.g. transport minnows in well water).

Boat and Motor Restrictions

A complete, updated, copy of the Montana Boating Laws may be obtained by contacting any FWP office or any FWP license agent. All passengers under the age of 12 must wear a PFD at all times when the boat is in motion if the boat is less than 26 feet long. A wearable, U.S. Coast Guard approved PFD must be available for each occupant of any boat.

Methods of Taking Fish

- A valid fishing license is required for all types of fishing.
- Spears and bows are counted as lines for purposes of determining line limits.
- When multiple lines are allowed on a body of water, the maximum number of lines allowed shall not exceed the greater of either the attended lines or the setlines. For example, if an angler is snagging for paddlefish on the Yellowstone River (where the limit is 2 attended lines or 6 setlines), he/she may only have 5 setlines in use while snagging with one attended line, for a total of 6 lines.
- All unattended fishing devices (crayfish traps, minnow traps, fish traps, setlines, etc.) must have the angler's name and phone number or name and ALS# attached.

Hook and Line Limits

Open Water

Rivers and Streams

- 6 lines with 6 hooks per line. The line/s must be attended and in the angler's immediate control unless they are used as setlines. See regulations for Setlines below.

Lakes and Reservoirs

- 2 lines with 2 hooks per line. All lines must be attended and in the angler's immediate control unless they are used as setlines. See regulations for Setlines below.

Ice Fishing

Lakes, Reservoirs, Rivers and Streams

- 6 lines with 2 hooks per line through the ice. When a line is used through the ice, the angler need not be in immediate control but must be in the vicinity and in visual contact with the line unless they are used as setlines. See regulations for Setlines below.

Size of Hole: There is no size limit for a hole used for ice fishing or with a spear.

Shelters: It is illegal to use any ice fishing shelter not conforming to the following rules:

Definition/use: Any hut or enclosure constructed of any material, except ice or snow, for the purpose of ice fishing.

Identification: Identification must be painted on or otherwise affixed to all unattended shelters in legible, 2-inch letters plainly visible at a distance of 100 feet. Identification must include the owner's name and address, name and phone number, or 9/10-digit ALS number. Attended shelters at Bearpaw Lake and Beaver Creek Reservoir must also be identified.

Inspection: Each closed shelter shall have a door that an officer may readily open from the outside for inspection when it is occupied.

Waste and Rubbish Disposal: Owners and occupants of shelters are required to keep their shelters (and the area immediately around them) free from rubbish and trash. Anglers must remove waste materials before they leave for the day.

Removal After the Season: The owner of an ice fishing shelter shall remove it from the ice before it becomes irretrievable at the end of the season, or within five days from receipt of notification from FWP to remove the shelter.

Setlines

- Number of lines is the same as for Hook and Line Limits. Setlines may be used in all waters unless prohibited in the District Exceptions to Standard Regulations.
- Setlines (unattended lines) must be checked by the owner at least once every 24 hours.
- The angler's name and phone number or name and 9/10-digit ALS# must be attached to each setline.
- Setlines shall not be attached to jugs or other floating devices.

Bow and Arrow

- All waters open to angling are open to taking paddlefish and non-game fish by bow and arrow.

Crossbows

- Illegal.

Nets and Traps

- Landing nets may be used for landing hooked fish. See Bait Regulations for use of nets to harvest bait fish.

Hoop Nets

- The use of hoop nets is permitted in certain areas of the Eastern Fishing District.
- The use of hoop nets is limited to licensed resident anglers.
- A permit is required. Permit applications and rules are available at FWP offices in Billings, Miles City and Glasgow.

Snagging

- Snagging non-game fish is allowed on all open waters in the Eastern District except on the Missouri River downstream from Fort Benton to the North Dakota border, and on the Yellowstone River downstream from the mouth of the Bighorn River, where only paddlefish may be snagged by anglers with a valid paddlefish tag. All waters open to angling are open to snagging paddlefish during the open paddlefish season by anglers with a valid tag (see Special Paddlefish Regulations for additional important paddlefish information). Snagging chinook salmon is allowed on Fort Peck Reservoir only from October 1 through November 30.

Spearing

- In all waters open to fishing, non-game fish, northern pike, burbot (ling), walleye and whitefish may be taken with rubber or spring-propelled spears by persons swimming or submerged. Spears or gigs may be used through the ice for non-game fish, northern pike, walleye, sauger and burbot (ling).

Bait Regulations

- Game fish, including yellow perch, may not be used as bait except as authorized below under Dead Bait.
- Possession of live bait fish is prohibited on waters closed to using live bait.
- It is illegal to release live bait of any kind into Montana waters; do not empty any live bait containers at your fishing site.
- Where live fish may be used as bait (see list below under Live Bait), legal non-game fish may be taken for use as bait in the following manner:
 - with hook and line; or
 - with seines no larger than 12 feet by 4 feet; or
 - with minnow traps (the dimensions shall not exceed 24 inches x 12 inches x 12 inches); or
 - with cast nets (maximum 6-foot radius) and dip nets (no larger than 3 feet x 3 feet).
- Legal non-game fish, except sculpins (genus *Cottus*) which must be killed prior to transport, may only be transported live:
 - to or from waters where live fish may be used as bait in the Central Fishing District, or
 - anywhere within the boundaries of the Eastern Fishing District.*[Note: Sculpins (genus Cottus) may not be used for bait in the Western District.]*
- Landowner permission is required to capture live bait from privately owned ponds.
- See Commercial Fishing License requirements for information on commercial harvest permits.
- All unattended fishing devices (crayfish traps, minnow traps, fish traps, setlines, etc.) must have the angler's name and phone number or name and ALS# attached.
- Areas within the Eastern Fishing District that have been identified as contaminated with Eurasian watermilfoil have additional bait restrictions as described below.

Dead Bait

- Non-game fish that are freshly killed or have been preserved by freezing, salting or pickling may be used as bait on all waters not restricted to artificial lures only. Heads and entrails of non-game fish may also be used as bait.
- Whole game fish may not be used as bait.
- Parts/pieces of bass, burbot (ling), channel catfish, crappie, northern pike, paddlefish, sauger, shovelnose sturgeon, tiger muskellunge, walleye, or yellow perch may be used as bait if edible portions are not wasted.
- The eggs of char, cisco, grayling, salmon or trout may be used as bait. Parts/pieces of salmonids may not be used as bait.

Live Bait

- Live bait fish may not be imported into Montana.
- Live animals such as meal worms, red worms, night crawlers, leeches, maggots, crayfish, reptiles, amphibians and insects may be used as bait on all waters not restricted to artificial lures. Leeches may only be imported into Montana from FWP-approved leech dealers. Anglers who import leeches must have in their possession a bill-of-sale from the approved out-of-state leech dealer when fishing with leeches in Montana. A list of approved out-of-state leech dealers may be obtained from FWP by calling 406-452-6181.
- Non-game fish that may be used as live bait in the Eastern District include all non-game species except black bullheads, bluegill, carp, goldfish, green sunfish, pumpkinseed, rainbow smelt, sculpins, stonecats, yellow bullheads, shortnose gar, sturgeon chub, sicklefin chub, Northern redbelly dace, blue sucker and pearl dace.
- Live non-game fish may be used as bait only in the following waters:

Rivers and Streams: All streams and rivers in the Eastern Fishing District except:

Milk River and its tributaries upstream from Fresno Dam.
Beaver Creek upstream from Beaver Creek Reservoir.

Lakes, Reservoirs, Ponds and Impoundments (listed by County):

Big Horn Co. - Tongue River Reservoir
 Blaine Co. - Cow Creek Reservoir, Dry Fork Reservoir, and all BLM reservoirs
 Carter Co. - Doug Gardner #2 Reservoir, Talcott Pond
 Custer Co. - Spotted Eagle Pond, Haughan Pond
 Daniels Co. - Whitetail Reservoir
 Dawson Co. - Johnson Reservoir, Lindsay Reservoir
 Fallon Co. - Baker Lake, South Sandstone Reservoir
 Fort Peck Reservoir
 Garfield Co. - Whiteside Reservoir
 Hill Co. - Beaver Creek Reservoir, Bailey Reservoir
 McCone Co. - Flat Lake, Hedstrom Reservoir
 Milk River impoundments downstream of Fresno Dam
 Petroleum Co. - Petrolia Reservoir
 Phillips Co. - Cole Ponds, Ester Reservoir, Frenchman Reservoir, Little Warm Reservoir, McChesney Reservoir, Nelson Reservoir, and all BLM reservoirs
 Richland Co. - Buxbaum West Reservoir, Gartside Reservoir, Kuester Reservoir
 Roosevelt Co. - Bainville Railroad Ponds
 Rosebud Co. - Castle Rock Lake
 Sheridan Co. - Box Elder Reservoir, Engstrom Reservoir, Medicine Lake Nat. Wildlife Refuge, Raymond Reservoir
 Valley Co. - Fort Peck Dredge Cut Trout Pond, Grub Reservoir, Gut Shot Reservoir, Shoot Reservoir, Triple Crossing Reservoir, Valley Reservoir, VR2 Reservoir, Wards Res., and all BLM reservoirs in the Willow Creek Drainage
 Wibaux Co. - Wibaux Pond
 Yellowstone Co. - Anita Reservoir

Bait restrictions in Eurasian watermilfoil contaminated areas

Eurasian watermilfoil is an invasive aquatic plant species that has become established in some Montana waters. This water weed is easily spread from one body of water to another primarily by plant fragments. Areas within the Eastern Fishing District that have been identified as contaminated with Eurasian watermilfoil are:

1. Fort Peck Reservoir
2. Fort Peck Dredge Cut Ponds
3. Missouri River from Fort Peck Dam to the mouth of the Milk River.

The additional bait restrictions within the contaminated areas are:

- The collection of bait animals, including commercial seining is not permitted.
- Transport of live aquatic bait animals to and from these contaminated areas is allowed only in clean water (e.g. transport minnows and leeches in well water).

Anglers are asked to inspect all bait buckets and live wells to ensure that **NO PLANT FRAGMENTS** are present when leaving a body of water. It takes only a small fragment of Eurasian watermilfoil (less than 2 inches) to start a new plant and infest a body of water.

General Regulations

Possession limit means the number of fish that you may possess at any time in any form: fresh, stored in freezers or lockers, salted, smoked, dried, canned or otherwise preserved. It is illegal to preserve fish (salted, smoked, dried, canned, or otherwise preserved) before taking them to your permanent residence (the physical abode or structure you maintain as your principal, legal residence) unless those fish can be counted. Mobile recreational vehicles, travel trailers, tents or storage/freezer lockers do not qualify as permanent residences. No person may sell or take for the purpose of sale any fish except as authorized in commercial fishing regulations.

Daily limit means the number of fish you may legally take during a calendar day. It is unlawful to exceed the standard daily limit unless the regulations for the water body where you are fishing specify a different limit. "Legally taken" means fish caught and not immediately released alive. Where catch and release is allowed, fish immediately released alive are considered not taken. A fish when landed and not immediately released becomes part of the daily limit of the person originally hooking the fish, even if the fish is donated to another person. If you receive

78 Turn In Poachers. Enough is Enough! Make the call: 1-800 TIP-MONT (1-800-847-6668)

fish from another angler, those fish also become part of your daily limit. You may possess the daily limit allowed only for the body of water on which you are fishing.

Handling and Transporting Legally Taken Fish

While a person is fishing, or while on the water or on the ice:

- All fish in possession must be visibly identifiable to species.
- All fish in possession must be whole with head, skin, fins and tail attached. Gills and entrails may be removed.

Fish may be dressed and filleted for transport to your permanent residence, unless size limits apply, under the following conditions:

- All fish can be counted and identified. Two fillets will be counted as one fish. If the catch is frozen prior to transport, each fish or fillet must be packaged so it can be counted.
- Salmonids (trout, salmon, grayling, char and whitefish): the entire skin must be attached to the fillet for identification.

General Fishing Seasons and Hours

Fishing Hours

- Fishing is allowed at all hours during open fishing seasons unless otherwise specified in District Exceptions to Standard Regulations.

Fishing Season: Lakes/Reservoirs and Rivers/Streams

- All waters open entire year unless otherwise specified in District Exceptions to Standard Regulations.

Special Paddlefish Regulations

All paddlefish anglers, regardless of age, must purchase the proper prerequisite conservation license, fishing license and paddlefish tag (see License Requirements). All licenses must be in the angler's immediate possession while fishing.

Daily and Possession Limits and Tags: 1 paddlefish per season per angler.

Anglers may select only one of the following areas, and may only fish in the area selected:

- Upper Missouri River, upstream from Fort Peck Dam to Fort Benton - **White Tag**
- Fort Peck Dredge Cuts (west of Park Grove Bridge and Nelson Dredge) on the Missouri River - **Blue Tag**
- Yellowstone River and Missouri River downstream from Fort Peck Dam – **Yellow Tag**

General Paddlefish Regulations for ALL Areas

- All waters open to angling are open to snagging paddlefish during the open paddlefish season by anglers with a valid tag, except the Ft Peck Dredge Cuts Archery section.
- Snagging non-game fish is allowed on all open waters in the Eastern District except on the Missouri River downstream from Fort Benton to the North Dakota border and on the Yellowstone River downstream from the mouth of the Bighorn River.
- Each angler must cast for, hook and reel in his or her own paddlefish. It is unlawful for another person to do so. It is illegal to loan tags or use another angler's tag.
- Hook size is limited to 8/0 and smaller for all paddlefish snagging.
- Gaffs, no longer than 4.5 feet in length, may be used to land a paddlefish that will be tagged. Gaffs may not be used to land a paddlefish that will be released.
- Any tag locked shut prior to attachment to a paddlefish shall be void and is not replaceable. Any altered or modified tag shall be void. Voided or lost tags are not replaceable.
- Paddlefish must be tagged immediately upon harvest.
- It is unlawful to possess an untagged paddlefish or part of one. If anglers cut up a paddlefish, they must keep the part of the back and dorsal fin (back fin) where the tag is attached and sealed to the fish.
- Tags must remain with processed fish until consumption.
- When a paddlefish is captured and tagged, the fish must be removed from the river by the end of the day (9:00 PM, MST).

Paddlefish Season Summary by River and River Section

River	River Section	Color	Season Dates	Harvest Days	C&R Days
Missouri River	Ft Peck Dam to Ft Benton	white	May 1 - Jun 15	all	all
	Ft Peck Dredge Cuts Note: bow & arrow harvest only; snagging not allowed!	blue	July 1 - Aug 31	all - bow & arrow harvest only	none
	Ft Peck Dam to ND Line	yellow	May 15 - Jun 30	Tue,Wed,Fri,Sat	none
Yellowstone River	Big Horn R to Intake Dam	yellow	May 15 - Jun 30	Tue,Wed,Fri,Sat	none
	Intake FAS	yellow	May 15 - Jun 30	Tue,Wed,Fri,Sat	Sun, Mon,Thur
	Downstream of Intake FAS to ND Line	yellow	May 15 - Jun 30	Tue,Wed,Fri,Sat	none
ND = North Dakota FAS = Fishing Access Site C&R = Catch and Release					

Missouri River upstream from Fort Peck Dam to Fort Benton (White Tag)

- The paddlefish fishery is managed under an annual harvest target not to exceed 500 fish. FWP may close the harvest season within 24 hours notice in any year if it appears the harvest target may be exceeded. Catch-and-release fishing would continue for the duration of the season. For current information on harvest status call the Glasgow FWP office at 406-228-3700. A paddlefish harvest hotline is available with up-to-date harvest counts and Missouri River flow information.
- Paddlefish snagging: open to harvesting paddlefish from May 1 to June 15 (unless closed earlier by FWP) from 6 AM to 9 PM (MST) daily. An unused white paddlefish tag is required. All paddlefish captured must either be tagged and kept, or released immediately.
- Catch-and-release snagging for paddlefish is open from May 1 to June 15. Proof of purchase of a white paddlefish tag on your fishing license is required for catch-and-release fishing. All paddlefish must be released immediately and may not be gaffed or lifted out of the water. Captured fish must remain at least partially submerged in water at all times (to avoid injury to the fish).

Fort Peck Dredge Cuts (west of Park Grove Bridge and Nelson Dredge) (Blue Tag)

- Bow and Arrow: open July 1 through August 31 for paddlefish. 1 paddlefish per angler. An unused blue paddlefish tag is required to fish for paddlefish.
- Snagging: no snagging allowed, this is an archery only season.

Missouri River downstream from Fort Peck Dam and the Yellowstone River (Yellow Tag)

- The paddlefish fishery is managed under a harvest target in conjunction with North Dakota. Montana has set regulations so that annual harvest will not exceed 1000 fish. FWP may close the season within 24 hours notice in any year if it appears the harvest target may be exceeded, and immediately at the Intake FAS and downstream to Cottonwood Creek, when it is estimated that the target has been reached. For current information on harvest status call the Miles City FWP office at 406-234-0900.
- The Montana nonprofit corporation designated to accept paddlefish egg donations for the caviar market is authorized to transport lawfully taken and tagged paddlefish donated by the angler in accordance with guidelines developed and implemented through the annual Memorandum of Understanding (MOU). Paddlefish taken on the Yellowstone River between the Burlington Northern Railroad Bridge at Glendive and the North Dakota state line and donated by the angler at the Intake FAS or at the Sidney Bridge FAS are eligible for transport by designated individuals.

Missouri River downstream from Fort Peck Dam (Yellow Tag)

- Paddlefish snagging:
 - open Tuesdays, Wednesdays, Fridays and Saturdays from May 15 through June 30 from 6 AM to 9 PM (MST) daily, unless closed to harvest earlier by FWP.
 - closed Sundays, Mondays and Thursdays.
- An unused yellow paddlefish tag is required to fish for paddlefish. The tag must be properly placed on the first paddlefish caught and landed.
- Catch-and-release snagging for paddlefish is not permitted.

Yellowstone River from the mouth of the Bighorn River to Intake Dam (not including Intake Fishing Access Site) and downstream of Intake Fishing Access Site to North Dakota State Line (Yellow Tag)

- Paddlefish Snagging:
 - open Tuesdays, Wednesdays, Fridays and Saturdays from May 15 through June 30 from 6 AM to 9 PM (MST) daily, unless closed to harvest earlier by FWP.
 - closed Sundays, Mondays and Thursdays.
- An unused yellow paddlefish tag is required to fish for paddlefish. The tag must be properly placed on the first paddlefish caught and landed.
- Catch-and-release snagging for paddlefish is not permitted.

Intake Fishing Access Site (Yellow Tag)

- Paddlefish Snagging:
 - open Tuesdays, Wednesdays, Fridays and Saturdays from May 15 through June 30 from 6 AM to 9 PM (MST) daily, unless closed to harvest earlier by FWP.
- An unused yellow paddlefish tag is required to fish for paddlefish. The tag must be properly placed on the first paddlefish caught and landed. It is unlawful to release a paddlefish except on designated catch-and-release days during the open season for paddlefish.
- Catch-and-release snagging:
 - open Sundays, Mondays and Thursdays from May 15 through June 30 from 6 AM to 9 PM (MST) daily, unless closed earlier by FWP.
- Evidence of a current year yellow paddlefish tag must be in possession to fish for paddlefish. All paddlefish must be released immediately and may not be gaffed or lifted out of the water. Captured fish must remain at least partially submerged in water at all times (to avoid injury to the fish). Following the harvest closure, catch-and-release snagging will be allowed, at Intake Fishing Access Site only, for 10 consecutive days or through June 30, whichever comes first.

Intake Diversion Dam to about 1/4 mile downstream as posted (Yellow Tag)

- Closed May 15 through June 30 to fishing or snagging from boats/vessels.

Tagging a Paddlefish

- Cut a small hole in the base of the dorsal fin (see illustration).
- Insert the metal loop portion of the plastic self-locking tag through this hole and seal tag.
- The metal loop must penetrate the fish so as to make the plastic self-locking tag non-removable when tag is sealed.
- The plastic self-locking tag must be completely sealed so it cannot be reopened. Any fish not tagged in accordance with these instructions shall be considered to be untagged. You must have your conservation and paddlefish license in your possession to fish for or/and take paddlefish.

Eastern District Standard Daily and Possession Limits

Each angler may take all of the limits listed in the chart, unless otherwise noted in the Eastern District Exceptions. For species not listed, there are no limits on the number of fish that may be taken or possessed.

Anglers who move from one fishing water to another may possess the limit of fish allowed only for the water on which they are currently fishing.

Species		Daily and Possession Limits
T R O U T	Brook trout	10 daily and in possession.
	Combined Trout includes brown trout, rainbow trout, golden trout and grayling	Lakes/Reservoirs: 5 daily and 10 in possession, includes cutthroat trout. Rivers/Streams: 5 daily and in possession.
	Cutthroat trout	Lakes/Reservoirs: included in the "Combined Trout" daily and possession limit. Rivers/Streams: all cutthroat trout must be released immediately.
	Lake trout	3 daily and in possession.
Bass		5 daily and in possession.
Burbot (ling)		5 daily and in possession.
Catfish		10 daily and 20 in possession.
Crappie		15 daily and 30 in possession.
Northern pike		10 daily and in possession.
Paddlefish		1 per season and in possession. Tag required.
Pallid sturgeon		0 - this is an endangered species and all fish must be released immediately. All waters are closed to fishing for pallid sturgeon.
Salmon (Kokanee & Chinook)		5 daily and 10 in possession.
Sauger/Walleye		5 daily and 10 in possession.
Shovelnose sturgeon		5 daily and in possession, none over 40 inches.
Tiger muskellunge		1 daily and in possession, must be over 40 inches.
Whitefish		20 daily and 40 in possession.

2014 GENERAL FISHING SEASON

Eastern District	Rivers and Streams	Lakes and Reservoirs
	Open all year	Open all year
If you don't find the water you are looking for listed in the district exceptions, use the standard regulations for the district you are fishing in.		

Eastern District Exceptions To Standard Regulations

Check the following list of waters for the body of water you intend to fish in the Eastern District. If the body of water is not found in the listing of Exceptions, all of the Eastern District standard seasons, daily/possession limits, and statewide regulations apply. Standard regulations apply for species not listed in the Exceptions.

Waterbody/Section	Exceptions to Standard Regulations
-------------------	------------------------------------

BEARPAW LAKE

- Combined Trout: 3 daily and in possession.

BEAVER CREEK RESERVOIR

- Combined Trout: 3 daily and in possession.

BIGHORN RIVER (east of Billings)

Entire river

- Sauger/Walleye: 5 daily, only 1 may be a sauger. Possession limit is 10, only 2 may be sauger.

BOXELDER RESERVOIR

- Yellow Perch: 25 daily and 50 in possession.

FORT PECK DREDGE CUTS (west of Park Grove Bridge and Nelson Dredge)

- Bow and Arrow: open July 1 through August 31 for paddlefish. 1 per season and in possession. An unused blue paddlefish tag is required to fish for paddlefish.
- Combined Trout: 2 rainbow trout daily and in possession.
- Hook and Line/Setlines: 2 lines with 2 hooks per line on open water and 6 lines with 6 hooks per line through the ice.
- Snagging: no snagging allowed.

FORT PECK KIDS POND (near Downstream Campground)

- Open to fishing for anglers 14 years of age and younger only. One rod per child.

FORT PECK RESERVOIR

Fort Peck Dam to Beauchamp Creek and CMR Trail 837

- Sauger/Walleye: 5 daily, only 1 may be a sauger. Possession limit is 10, only 2 may be sauger.
- Spearing: in addition to the standard regulations, chinook salmon and lake trout may be taken by spear or gig through the ice December 1 through March 31.
- Snagging: allowed only for chinook salmon from October 1 through November 30.

HOLLECKER LAKE

- Bass: only 1 over 15 inches daily and in possession.

HOME RUN POND (Glasgow)

- Open to fishing for anglers 14 years of age and younger only. One rod per child.

MARIAS RIVER

- Open entire year downstream from the Hwy 223 Bridge.
- Combined Trout: 5 daily and in possession, only 1 over 18 inches.
- Sauger/Walleye: 5 daily, only 1 may be a sauger. Possession limit is 10, only 2 may be sauger.

MEDICINE LAKE NATIONAL WILDLIFE REFUGE (Sheridan County)

All lakes

- Hook and Line/Setlines: 6 lines with 6 hooks per line during the applicable open season.

Medicine Lake

- Open November 15 through September 15.

Gaffney Lake and Lake 10

- Open August 15 through March 31.

Lake 12

- Open November 15 through March 31.

Waterbody/Section	Exceptions to Standard Regulations
-------------------	------------------------------------

MISSOURI RIVER

Entire river

- Snagging: it is illegal to snag for fish other than paddlefish on the Missouri River downstream from Fort Benton; any fish other than paddlefish must be immediately released alive.

Upstream from Fort Peck Dam to Fort Benton

- Paddlefish snagging: open for harvesting paddlefish from May 1 to June 15 from 6 AM to 9 PM, MST, daily unless closed earlier by FWP.
- Catch-and-release snagging for paddlefish is open from May 1 to June 15 from 6 AM to 9 PM, MST, daily. See Special Paddlefish Regulations (pages 79-81) for additional important paddlefish information.
- Sauger/Walleye: 5 daily, only 1 may be a sauger. Possession limit is 10, only 2 may be sauger.

Downstream from Fort Peck Dam

- Paddlefish snagging: open Tuesdays, Wednesdays, Fridays and Saturdays May 15 through June 30 from 6 AM to 9 PM, MST, unless closed to harvest earlier by FWP. Paddlefish snagging is closed on Sundays, Mondays and Thursdays. See Special Paddlefish Regulations (pages 79-81) for additional important paddlefish information.
- Catch-and-release snagging for paddlefish is not permitted.

Fort Peck Dam to the mouth of the Milk River

- Combined Trout: 2 rainbow trout daily and in possession.
- Hook and Line/Setlines: 2 lines with 2 hooks per line on open water and 6 lines with 6 hooks per line through the ice.

Downstream from Fort Peck Dam near Duck Island as posted

- Closed from March 1 through July 31 to fishing and wading as posted.

ROSS RESERVOIR (Blaine County)

- Open third Saturday in May through November 30.

SPOTTED EAGLE POND (Miles City)

- 5 fish daily and in possession, any combination of species.

TONGUE RIVER

Tongue River Reservoir to Wyoming State Border

- Sauger/Walleye: 5 daily (only 1 may be a sauger) and 10 in possession (only 2 may be sauger).

Twelve Mile Dam Fishing Access Site (T&Y Dam)

- Hook and Line/Setlines: 2 lines with 2 hooks per line all year.

TONGUE RIVER RESERVOIR

- Crappie: 30 daily and 60 in possession.
- Sauger/Walleye: 5 daily (only 1 may be a sauger) and 10 in possession (only 2 may be sauger).
- Hook and Line/Setlines: 6 lines with 6 hooks per line through the ice.

WARM SPRINGS CREEK (Fergus County)

- Combined Trout: 5 daily and in possession, only 1 over 18 inches.

WIND CREEK (Blaine County)

- Closed entire year from Clear Creek road crossing to Ross Reservoir Dam.

Missouri River Upstream from Fort Peck Dam

Waterbody/Section**Exceptions to Standard Regulations****YELLOWSTONE RIVER****I-90 Bridge at Billings to the mouth of the Bighorn River**

- Combined Trout: 5 daily and in possession, only 1 over 18 inches, includes cutthroat trout.

I-90 Bridge at Billings to Cartersville Diversion Dam at Forsyth

- Sauger/Walleye: 5 daily, only 1 may be a sauger. Possession limit is 10, only 2 may be sauger.

Downstream from the mouth of the Bighorn River, not including Intake Fishing Access Site

- Paddlefish snagging: Open for harvesting paddlefish May 15 through June 30 from 6 AM to 9 PM, MST, on Tuesdays, Wednesdays, Fridays and Saturdays only, unless closed to harvest earlier by FWP. Paddlefish snagging is closed on Sundays, Mondays and Thursdays. See Special Paddlefish Regulations (pages 79-81) for additional important information.
- Catch-and-release snagging for paddlefish is not permitted.
- Snagging: It is illegal to snag for fish, other than paddlefish.

Intake Fishing Access Site

- Paddlefish Snagging: open for harvesting paddlefish May 15 through June 30 from 6 AM to 9 PM, MST, on Tuesdays, Wednesdays, Fridays or Saturdays unless closed earlier by FWP.
- Catch-and-release snagging is allowed May 15 through June 30 from 6 AM to 9 PM, MST, on Sundays, Mondays and Thursdays. Following the harvest closure, catch-and-release snagging will be allowed for 10 consecutive days or through June 30, whichever comes first. See Special Paddlefish Regulations (pages 79-81) for additional important information.
- Snagging: It is illegal to snag for fish other than paddlefish.
- Hook and Line/Setlines: 2 lines with 2 hooks per line all year.

Intake Diversion Dam to about 1/4 mile downstream as posted

- Closed May 15 through June 30 to fishing or snagging from boats/vessels.
- Snagging: It is illegal to snag for fish other than paddlefish.

Yellowstone & Lower Missouri Rivers

Aquatic Invasive Species

Help keep these organisms out of Montana waters. **INSPECT • CLEAN • DRY**
Report any suspected AIS to FWP - fwp.mt.gov/AIS

Eurasian Watermilfoil

- Present in the lower Clark Fork, Jefferson, upper Missouri, and Fort Peck.
- Spreads easily by fragmentation and between waterbodies when attached to boats, motors, and trailers.
- Impacts to recreational opportunities and fisheries habitat from heavy growth mats.
- Can quickly spread throughout lakes and rivers.

Zebra/Quagga Mussels

- Not known to be present in Montana
- Small mussels, typically $\frac{3}{4}$ inch to 2 inches; juveniles can be as small as peppercorns
- Easily spread attached to boats or in water, larval stage cannot be seen with naked eye
- Can cause profound ecological and economic impacts

INSPECT
CLEAN.
DRY.

Aquatic invasive species (AIS) may be brought into Montana from other places. They include clams, fish, mussels, plants, weeds, and aquatic insects.

With just THREE EASY STEPS

you can help stop the spread of aquatic invasive species that choke municipal water and irrigation systems, damage our waters and ruin your fishing and fun.

1. INSPECT.

After leaving a lake or stream, inspect your boat, engine, trailer, anchor, waders, and other fishing and boating gear for mud, water, and vegetation that could carry aquatic invasive species.

2. CLEAN.

Completely remove all mud, water, and vegetation you find. Boaters should use a pressurized power sprayer, found at most do-it-yourself car washes. The hot water helps kill organisms and the pressure removes mud and vegetation. No need to use soap or chemicals.

3. DRY.

Aquatic invaders can survive only in water and wet areas. By draining and drying your boat and fishing equipment thoroughly, you will kill most invasive species. The longer you keep your boat, trailer, waders, and other equipment outside in the hot sun between trips, the better.

Montana Fish Records

For a complete list of Montana fish records, please visit fwp.mt.gov, call 406-444-7815, or email: begiddings@mt.gov.

If you think you have legally caught a fish in Montana that may be a state record:

- To prevent loss of weight, don't clean or freeze the fish. Keep the fish cool – preferably on ice. Take a picture of the fish.
- Get the fish weighed as soon as possible on a certified scale (found in grocery or hardware stores, etc.) and witnessed by an observer. Get an affidavit from the store if no FWP official is present. Measure the length.
- Contact the nearest FWP office to have the fish positively identified and to determine if it is a state record.

Records as of January 1, 2014. Native fish species are shaded in green.

FISH	Length	WEIGHT	SITE	ANGLER	DATE
Arctic Grayling	20	3.63 lbs.	Washtub Lake	Glenn Owens	6/28/03
Black Bullhead	14.37	2.60 lbs.	Smiley Slough	Birrell White	6/20/09
Black Crappie	16.7	3.13 lbs.	Tongue River Reservoir	Al Elser	1973
Bluegill	11	2.64 lbs.	Peterson's Stock Dam	Brent Fladmo	6/3/83
Brook Trout		9.06 lbs.	Lower Two Medicine Lake	John R. Cook	1940
Brown Trout		29 lbs.	Wade Lake	E.H. "Peck" Bacon	1966
Bull Trout (Dolly Varden)	37	25.63 lbs.		James Hyer	1916
Burbot	39	17.08 lbs.	Missouri River	Jeff Eugene Iwen	4/18/89
Channel Catfish	41.75	34.8 lbs	Fort Peck Reservoir	Dan Davenport	7/26/13
Chinook Salmon	38	31.13 lbs.	Fort Peck Reservoir	Carl L. Niles	10/2/91
Cisco	17.25	1.75 lbs.	Below Ft Peck Powerhouse	Curt Zimmerman	5/19/01
Coho Salmon	25.5	4.88 lbs.	Fort Peck Reservoir Face of Dam	Irven F. Stohl	5/29/73

Cutthroat Trout		16 lbs.	Red Eagle Lake	Wm. D. Sands	1955
Golden Trout	23.5	5.43 lbs.	Cave Lake	Mike Malixi	7/16/00
Goldeye		3.18 lbs.	Nelson Reservoir	Don Nevrviv	7/4/00
Green Sunfish	9.0	0.84 lbs.	Hickson's Pond	Bette Schmieding	5/25/09
Kokanee Salmon	26.8	7.85 lbs	Hauser Lake	John Bomar	9/23/03
Lake Trout	42.5	42.69 lbs.	Flathead Lake	Ruth Barber	6/23/04
Lake Whitefish	27	10.46 lbs.	Flathead Lake	Swan McDonald V	8/26/06
Largemouth Bass	22.5	8.80 lbs.	Noxon Rapids Reservoir	Darin Williams	5/2/09
Mountain Whitefish	23	5.11 lbs.	Hauser Reservoir	Walt Goodman	10/10/07
Northern Pikeminnow	27.125	7.88 lbs.	Noxon Rapids Reservoir	Darrel Torgrimson	5/28/91
Northern Pike		37.5 lbs.	Tongue River Reservoir	Lance Moyer	1972
Paddlefish	77	142.5 lbs.	Missouri River	Larry Branstetter	5/20/73
Pallid Sturgeon		60 lbs.	Yellowstone River	Gene Sattler	5/13/79
Rainbow Trout	38.62	33.1 lbs.	Kootenai River	Jack G. Housel, Jr.	8/11/97
Sauger	28.2	8.805 lbs.	Fort Peck Reservoir	Gene Moore	12/12/94
Shovelnose Sturgeon	39.75	14.125 lbs.	Missouri River	Chad Buck	5/21/10
Smallmouth Bass	22.5	6.7 lbs.	Fort Peck Reservoir	Melvin McDanold	8/30/13
Tiger Muskellunge	50	38.75 lbs.	Deadmans Basin Reservoir	Leo Cantin	9/2/12
Walleye	35	17.75 lbs.	Tiber Reservoir	Robert Hart	11/18/07
White Bass	17	2.80 lbs.	Missouri River	Vernon Pacovsky	10/13/07
White Crappie	18.5	3.68 lbs.	Tongue River	Gene Bassett	5/10/96
White Sturgeon	75	96 lbs.	Kootenai River	Herb Stout	1968
Yellow Bullhead	13.75	1.19 lbs.	Tongue River Reservoir	Jordan Van Haele	8/18/13
Yellow Perch	14.375	2.39 lbs.	Lower Stillwater Lake	Josh Emmert	2/19/06

Help Protect Native Species

If you don't know, let it go!

Key to identification

PALLID STURGEON are frequently mistaken for shovelnose sturgeon (see pictures below and on next two pages):

1. Look to see if the outer barbels are more than twice the length of the inner barbels. Are the barbels attached closer to the mouth than to the tip of the snout? If yes—the fish is a pallid sturgeon. Carefully release all pallid sturgeon (see page 8).

2. Sturgeon are difficult to distinguish. The shovelnose sturgeon is smaller and more common.

Montana FWP recommends that all sturgeon be released if you are unsure of the species.

SAUGER are frequently mistaken for walleye (see pictures below):

1. Look for multiple small, distinct black spots on the spiny dorsal fin (first fin on top). If yes—it is a sauger.

MONTANA LAW REQUIRES:

- All pallid sturgeon must be released immediately and all sturgeon longer than 40 inches must be released immediately.
- Only one sauger may be kept on the Missouri River upstream from Fort Peck Reservoir, on Fort Peck Reservoir, and on the Yellowstone River upstream from Forsyth at the Cartersville Diversion Dam.

Know the difference between pallid and shovelnose sturgeon:

Pallid Sturgeon

Outer barbels 2 times the length of the inner barbels. (Be alert for broken barbels).

Barbels attached close to mouth, about 1/3 the distance between mouth and tip of snout.

Shovelnose Sturgeon

Outer barbels barely longer than inner barbels.

Barbels attached about 1/2 the distance between mouth and tip of snout.

The pallid sturgeon is a fish of concern in Montana and it is listed as an Endangered Species by the U.S. Fish and Wildlife Service. Pallids are a bottom-dwelling fish of the Missouri and Yellowstone Rivers, preferring strong currents flowing over a sandy or gravelly river bottom. Learn to distinguish the pallid from the shovelnose sturgeon, a smaller and more common species. Because the sturgeon are hard to identify, Montana FWP recommends that all sturgeon be released if you're unsure of the species.
